ACKNOWLEDGEMENTS

The research work presented in this thesis has been carried out under the valuable and expert guidance of Prof. (Dr.) I.Ashraf and Prof. (Dr.) M.I.Khan. I consider it a privilege to have been associated with them for carrying out the research work towards my Ph.D. degree. I have greatly benefited from their deep insight into the subject and constant support during numerous discussions. It is with a deep sense of affection and gratitude that I wish to express my sincere thanks to them.

Most sincere thanks are due to respected Professor S W Akhtar, Honorable Vice Chancellor, Integral University, for providing necessary facilities required to carry out this work. The author also expresses his thanks to respected Professor S M Iqbal, Academic Consultant, Integral University for his constant motivation and encouragements.

The author feels indebted to Dr. Q. Shoeb, Controller of Examinations and Mr. M.M. Khan for giving his valuable time for fruitful discussions related to the work. The author also expresses his acknowledgments to Mr. Arshad Ali, Gulsher Khan, Mudassir Umar Rizvi, Nizamuddin, Abdul Wahid, Abdul Raziq and all the faculty members of Electrical and Electronics Engineering department for their motivation and support during the course of the work.

The author acknowledges his indebtedness to the authorities of the Integral University for providing an opportunity to pursue the research work along with the normal departmental duties.
The author would like to thank the department of New and Renewable Energy, Government of India for providing the details of different renewable sources based power generation installed in India.

The author would also like to thank all those people who cooperated in one way or the other way to complete the research work in time.

The author is deeply indebted to his parents for their motivation, support and encouragements and to his brother and sisters who motivated him to speed up the research work.

The author is grateful to his wife Mrs. Ruksana Sultana for her patient understanding, cooperation she extended to him and to his children Aafia Nisa and Mohammad Rahamatullah Mallick for bearing the constraints with him during the course of the research work.
