ACKNOWLEDGEMENTS

I am deeply indebted to Dr. Alka Prakash, Associate Professor in the Department of Zoology, Faculty of Science, Dayalbagh Educational Institute, Agra for supervising the present work. It has been a wonderful experience of working under her and learning from the person of her experience and knowledge. Her creative ideas and suggestions enlightened me all through my research work. This work would have never reached to its logical end without her involvement. She had been a source of encouragement, inspiration and extended every possible help starting from my admission to Ph.D. program till the end of writing to complete this work. Her simplicity, humane approach and earnestness to help, made all the difference and redefined the relationship between teachers and taught.

My sincere thanks to Prof. Sant Prakash, Head, Department of Zoology, Faculty of Science, Dayalbagh Educational Institute, Agra for his kind support in terms of better environment for executing research and research facilities. The constant appreciation and encouragement provided by him motivated me to complete this research.

I am extremely grateful to Prof. P.K. Kalra, Director, Dayalbagh Educational Institute, Agra, Prof. L.D. Khimani, Dean, Faculty of Science, Dayalbagh Educational Institute, Agra. I also extend my thanks to my respected teachers of the Department of Zoology for their continuous motivation to submit the report.

I would like to express my gratitude to Dr. Deepa Bisht, Scientist-D, Department of Biochemistry, National JALMA Institute for Leprosy and Other Mycobacterial Diseases (ICMR), Agra, for MALDI-TOF analysis and for her kind help and encouragement during my research work.

It is a great privilege to acknowledge and give thanks to all teachers and seniors who have directly and indirectly helped me in the successful completion of my Ph.D. thesis. With a deep sense of gratitude to all of them, I feel great pleasure in acknowledging their sacrifices, hard works, untiring efforts and selfless involvement towards the success of this assignment.
I express my sincere words of gratitude to Dr. Ranjana Mahlortha, Chief Scientist and Dr. Parag Sharma, Scientist, CSIR-National Physical Laboratory, New Delhi for supporting this scientific endeavor.

I am thankful to Dr. Priyanka Singh, Assistant Professor, Department of Zoology, Faculty of Science, Dayalbagh Educational Institute, for her support and encouragement during my research work.

I feel immense pleasure while expressing thanks to Ms. Sweta, Ms. Richi, Ms. Mahima, Ms. Anjali, Ms. Shruti, Ms. Nikita, Ms. Ritu and Ms. Anuradha and other dear ones whose names I might have not mentioned. Help and assistance rendered by Bhagat bhaiya is also gratefully acknowledged.

I offer my humble, silent and sincere obeisance in the Lotus Feet of the Almighty for His unbounded Grace and also pray for His Grace forever.

My feeling regarding support of my parents, grandparents, husband and younger brother can’t be expressed in words. From the bottom of my heart I extend my special thanks to all my family members for their untiring and constant support during this period.

Garima Sharma
