

ACKNOWLEDGEMENT

I am very much indebted to **Dr. J. Prakash**, Assistant Professor, Department of Instrumentation Engineering, Madras Institute of Technology, for his excellent guidance and continuous encouragement throughout this work. The contents of this thesis are the outcome of prolonged and inspiring discussions that I had with him. His unlimited thinking capabilities over a problem and dedication to research have enabled me to gain an insight into the research work.

I take this opportunity to thank **Dr. P.A. Janakiraman**, Professor, Department of Electrical Engineering, IIT, Chennai and **Dr. P. Lakshmi**, Assistant Professor, Department of Electrical Engineering, Anna University, Chennai for their valuable suggestions and comments. I am indebted to express my gratitude to **Dr. D. Viswanathan** Vice Chancellor, **Dr. K. Jayaraman**, Registrar and **Dr. V. Ramamurthi**, Director (Research), Anna University, Chennai for providing excellent academic and research environment in the department.

I express my whole-hearted thanks to **Dr. P. Kanagasabapathy**, Dean, **Dr. T. Thyagarajan**, Professor and Head and **Dr. S. Ramakrishnan**, Assistant Professor and Research Coordinator, Department of Instrumentation Engineering, Madras Institute of Technology, Anna University, Chennai. I thank the management of Karunya University for their support and help.

I thank my parents, brothers, friends and my wife for their kind help and support.

R. SENTHIL
