ACKNOWLEDGEMENTS

It gives me an immense pleasure and happiness to thank my guide Prof. Datta Madanmwar for his constant support, most valuable suggestions, expert supervision and deep involvement towards research and science. I could never have embarked and started all of this without his prior teachings, supervision, advice and guidance right from the beginning of this research and throughout the work. I am grateful to him for his keen interest and brightening my ideas and thoughts of research during the course of my Ph.D. His vast experience of research and dedication towards science inspired throughout my research and will be ever remembered with deep sense of gratitude. Special thanks to Shradhha Madam and Shreya for all the care, concern and support throughout.

I sincerely thank Dr. Amita Shah for her enthusiastic support and advices whenever it was needed. I would like to take this opportunity to thank the HOD and all faculty members of Department of Biosciences, the University teaching and non-teaching staff and USIC for their support. I would extend my special thanks to SICART, GSBTM and Anand Agriculture University for providing facility for various analysis whenever needed. Special thanks to MKU for teaching different rDNA techniques during summer school.

The financial support from DBT, DST and CSIR-SRF are gratefully acknowledged.

My deepest thanks to Dr. Yogesh S. Shouche, NCCS, Pune for providing facility for sequencing. Without which diversity studies would have been impossible. I convey my special acknowledgement to Mr. Hitendra Munot and Sonal for their unconditional help in lab at NCCS. I am also thankful to Shweta and Suchi for providing me accommodation at NCCS. I am also thankful to Sunil, Girish and Rahul for helping in analysis of diversity data.

I am thankful to my seniors – Dr. Chirayu Desai, Dr. Amit Thaker, Dr. Sarayu Mohana, Dr. Hilor Pathak, Dr. Vrushali Dandavate, Dr. Eltayib Hassan Ali, and Dr. Nirajkumar Singh for their kind advices, scientific discussions and support throughout. I am heartily grateful to Dr. Asha Parmar, Dr. Bhavik Acharya and Dr. Tripti Raghuvendra for their kind support, valuable suggestions, scientific discussions, laughter, care and their concern as a little sister throughout my Ph.D. Very special thanks to Dr. Varun Shah for his kindness, expertise and guidance throughout the entirety of my research, specifically improving my English in the research papers. I would also like to thank all my colleagues – Dr. Chetan Oturkar, Sneha didi, Kunal, Sananda, Zeenat, Avani, Avinash, Sagar, Dixita, Harshvadan, Vrutika, Ravi, Krishna, Jenny, Shivani and Nayan for unconditional help, cooperation, laughter, hilarious talks and for making a pleasant work atmosphere in lab. I extended special thanks to Binal for maintaining my cultures during my absence in lab. I would also like to thank Nirav for all the help and cooperation.
My heartfelt thanks to Janki, Shravanthi, Siddharth, Ankur, Dishita, Anjana, Ankita, Krutika, Anjali and Debjani for all the help, cooperation, support, hilarious talks, scientific discussions and their sincere efforts for all the experiments while working with me during their dissertation.

My special thanks to Sandeep bhai, Neha didi, Roopal, Bhaumik, Ankit, Ketan, Dhruti, Dhananjay, Pramod, Purvesh bhai, Neeta, Umang sir, Anjali, Vimal, Gopal, Honey and all research students of BRD School of Biosciences for all their help cooperation and fun filled environment throughout which kept me buoyant. Very Special thanks to my two room partner Deval, Hetal and my friend Shraddha for all the valuable suggestions, laughter, critics, support and the wonderful time spent together.

Very special thanks to Dr. Anuradha Nerurkar, MSU, Baroda (Dissertation Guide) for providing me first platform to learn research. I would also like to thank all my friends especially Ms. Asha Nair for her unconditional help, cooperation valuable suggestions during my Ph.D.

It is a matter of pride and honour to acknowledge my parents Hansaben Patel and Amrutlal Patel and my in-laws Sunitaben Chapla and Gopaldas Chapla, without whose support this work would have not been accomplished. Words fall short for their unconditional love, support and cooperation right from the beginning till date. Their advice, care and sacrifice for me will never be repaid. My special thanks to my elder sister, Pragna my younger brother Nevil, brother in-law Chaitanya (Chaitu) for all the support, cooperation and love. Very special thanks to my husband Dr. Digant Chapla for all the help, fights, critics, love, care and valuable scientific discussions throughout. I heartily thank him for unconditional help for several studies during my research specifically in thesis writing.

Where would have been I without the GOD’s grace? I am thankful to Almighty for fulfilling all my wishes, being always with me and showering me with enough strength, courage and good health to work endlessly and follow my dreams. Thanks a lot and be always with me....

Vilasben Patel
