Acknowledgement

Completion of this research work has only been possible because of the spontaneous help given to me by many persons. I avail this opportunity to express my feelings for them.

My deepest gratitude is towards my supervisors Dr. Prasad A. Wadegaonkar for his excellent guidance and counseling during the entire period of this research work. His tireless efforts, timely help, advice and overwhelming support have enabled completion of this thesis.

I express my gratefulness to Dr. M. K. Rai, Head, Department of Biotechnology, Amravati University, for providing me necessary facilities and support. I am also grateful to Dr. N. J. Chikhale, Dr. P.V. Thakare and Dr. A. P. Ramteke, Senior faculty members, DBT, Amravati University, Amravati for helping me in due course of time and providing necessary suggestions in work.

I am very indebted to Dr. N. G. V. Rao, Assistant Professor, Dr. PDKV, Akola for extending laboratory facilities. Present research work is outcome of affection of Dr. N.G.V. Rao towards me who helped me to overcome from the most difficult situations in my life and initiated me to this fascinating field of research. His everlasting cheerfulness and capacity of hard work is a prime source of inspiration for me.

Encouragement and parental guidance received from Honorable Dr. S.A. Nimbalkar, VC, Dr. PDKV, Akola on several critical moments during this Ph.D. work has proven to be an impetus to complete this work.

I express my sincere gratitude towards Dr. Raj Bhatnagar, ICGEB, New Delhi for providing facilities of FPLC. I am also thankful to Mrs. V. P. Wadegaonkar, Research Scholar, DBT, Amravati University for her valuable suggestions and moral support.

Thanks are also due to my colleagues Dr. Niraj, Dr. Sachin, Dr. Kanchan, Dr. Ajay Sir, Dr. Rajesh, Shital, Sonali, Vaibhav, Ujval and Nitin for their help and support at various stages. Grateful thanks are given to my friends Vikrant, Mahesh, Hemant, Vinay, Ganesh, Gajanan Bhagat and Vijay Dabhade for their encouragement and moral support.
I am very indebted to my elder brother Dr. Umesh and sister in law Mrs. Nirupama for giving me parental guidance and moral support. Thoughts and suggestions given to me by my elder brother enriched my knowledge in every aspect of life. Thanks are also extended to my sisters Guddi and Meghali. Words cannot express my feeling towards my better half Aarati, her help in every aspect is greatly appreciable.

Last but not least, I am short of my words to express my gratitude to my parents their continuous moral support, blessings and affection, which helped me to complete this work. My father had sowed this dream and my mother has taken every possible pain for fulfilling it. This thesis is dedicated to them.

Many other people who remained to mention above have also directly or indirectly contributed to my thesis. I would like to express my sincere thanks to all of them.

Mangesh P. Moharil
