ACKNOWLEDGEMENTS

In the voyage of my doctoral research many people contributed significantly to help me to reach its completion through their constant support and encouragement. Without acknowledging this effort, this thesis will not be complete.

I reserve the first and most important part of it to my supervisor Dr. Beer Pal Singh, Department of Physics, Ch. Charan Singh University, Meerut, for his keen interest, strong motivation and constant encouragement during the course of the work. I thank him for his great patience, constructive criticism and myriad useful suggestions apart from invaluable guidance to me. I admire his devotion to high quality science and for instilling the thirst for science in not only his students but in all whom he comes across. I wish I could imbibe some of those qualities and exercise them for the rest of my life. I learned a lot about ethical science under his guidance and I believe that the essential habits he cultivated in me of attending seminars, group meetings, yearly resolution and planning will give me the confidence to start an independent scientific career.

I am grateful to Prof. Rakesh Kumar, Head, Department of Physics, Ch. Charan Singh University, Meerut for his inspiration to do hard work and for providing the necessary facilities and infrastructure.

It is my honour to express my sincere and deep thanks to Dr. R.C Tyagi (Retd. Scientist, SSPL, New Delhi) for endless support, scientific discussion and motivation at every step of my research work. He was always and is easily accessible for discussion on various scientific things with me in spite of his advanced age and busy schedule. I would also like to thank Prof. S.P. Khare, Prof. Deo Raj, Prof. Ashok Kumar and Dr. Kavita Sharma from the Department of Physics, Ch. Charan Singh University, Meerut for their constructive suggestions at different stages of this work.
I owe my sincere thanks to all the staff members of the Department of Physics, Ch. Charan Singh University, Meerut for their support and encouragement.

It gives me immense pleasure to express my special thanks to all my lab-mate and seniors Dr. Sunder Pal Singh, Dr. Rakesh Kumar and Ms. Jyotshana Gaur for their help at all time. It would be difficult to name every one individually, so I would like to thank everyone whose name is not included in the list.

I am extremely thankful to Dr. Preetam, Dr. Deepak Teotia and Mr. Ashwani without whom the work would not have been possible.

I am extremely thankful to Dr. O.P Agarwal, M.D, Noida Institute of Engineering & Technology, Greater Noida for his support and co-operation during my research work.

I am very thankful to Prof. Ramesh Chandra (from IIT, Roorkee) for his help to me in characterizing my samples. I am also thankful to Dr. Subhash Chand (from Meerut College, Meerut) and Dr. K.P Singh (from NIET, Greater Noida) who was always ready to help and give his valuable suggestions & facilities during my research work.

I pay regards to my respected Grandmother-in-Law Smt. Sushila Devi, Father-in-Law Mr. Parmod Kumar Goel, and Mother-in-Law Smt. Kanta Devi, their blessings and continuous encouragement has led me towards achieving my goals.

I fail to club the words through which I could express my feeling for my brother Er. Sagar Bishnoi and Bhabi Mrs. Nidhi Bishnoi for full co-operation and encouragement during my research work.

I would like to express my love and thanks to my husband Mr. Raj Kumar Goel for his patience, moral support and constant co-operation for the whole period of
research. The meaning of my life and work is incomplete without expressing my love for my daughters Tanishi and Avika.

I would like to express my deepest love, respect and admiration for my entire family for their unconditional support, understanding and dedication throughout these years. My parents (Father Mr. Rakesh Kumar Vishnoi and Mother Smt. Krishna Vishnoi) provided the best educational opportunities that they could afford and I had never had the need to worry about anything else besides study. And above all, I pay my regards to the Almighty for his love and blessings.

(Shweta Vishnoi)
