This task would not have been accomplished without the financial assistance from the Council of Scientific and Industrial Research, New Delhi. I am grateful to the Council for the award of Senior Research Fellowship, which proved to be really helpful. Drug companies, Cadila Pharmaceuticals Ltd, Ahmedabad, Schering-Plough Corporation, USA, Hoechst India, Mumbai, and Pfizer, USA made this task easier by providing generous gifts of various drugs used in the present study.

The considerable support and understanding, the immense love and compassion that gave me the strength to pursue this endeavour came from Sohel, my husband and in-laws, Mamma and Pappa. Sanjeed, our son was always a source of inspiration with his cheerful ways and one-in-million-dollar smile. It would have been tough to compute this manuscript without the support of Shabbir bhai and Fatemi bhabhi. I take this opportunity to thank Macco Systems for their support and co-operation. Love and understanding from my parents and brothers, Ali and Irfan gave me the resilience that I needed for completing this project. I am thankful for all the support from my family.
