Acknowledgement

It is my privilege to express my deep sense of gratitude to my supervisor Dr. B. P. Yadav, M.Sc., Ph.D, Reader in chemistry, Meerut College, Meerut for his constant support, encouragement and immensely valuable ideas, suggestions. My association with him has also taught me to appreciate the value of persistent tolerance in the development of healthy scientific environment.

I am grateful to Dr. N. P. Singh, Principal, Meerut College, Meerut for providing the necessary facilities during the course of the work. I am highly indebted to Dr. Arun Kumar, Head of Department of Chemistry, Meerut College Meerut to allow me to use the facilities of the college. I am grateful to all the staff for their cooperation.

My deepest regards to my Senior Colleagues Dr. Sharad porwal (Ph.D. from CDRI Lucknow) for his support, valuable suggestions about synthesis of molecules in laboratory and in different analysis required in the present research work.

I heartily acknowledge the stimulating companionship and full cooperation of my previous college teacher Quamar Abbas Zaidi (Biology Lecturer in I.M. Inter College Amroha J.P. Nagar) for his valuable advice, encouragement and moral support during my study period in Biochemistry Division and biological screening.

I would like to thank my Senior Colleague Pramod chauhan for his valuable advice, encouragement and moral support during my study period and their kind cooperation and their friendly behavior.
I am highly grateful to my senior Dr. Mukesh yadav who helped me timely about thesis writing and in laboratory work done at Meerut College Meerut.

I would like to thank my Senior Colleagues Dr.Vishnu Gupta, Mr. Bheem kumar singh (in Jubilant Organosys Ltd.) for their analytical support and excellent cooperation.

I am also thankful to Jamia Hamdard, Faculty of Pharmacy New Delhi for analytical support for Nuclear Magnetic Resonance (1HNMR) instrument is Bruker 400 MHz, and is capable for scanning 1D (1HNMR) in high resolution of a good quality spectrum. In This lab samples are invited from universities, colleges, national laboratories and industries for scanning on payment basis. Thanks for Arbro Pharmaceuticals ltd. New Delhi for MASS and (LC-MS) Liquid chromatography-Mass spectrometry which equipped with AP1-300

I don’t have the words to express the gratitude to my family members, my father Sri Chandra pal Singh and mother Smt. Rameshwar Devi who inspired me and kept my motto high during ups and downs of various circumstances.

I would like to express my appreciation to my brother Rajkumar Singh and Rajeev kumar for valuable support during this work.

I heartily praise my wife Usha yadav, for her sacrifice and constant encouragement.

DUSHYANT KUMAR
