ACKNOWLEDGEMENTS

Foremost, I would like to place on record my sincere gratitude to my beloved teacher and research guide Dr. P.K.K. Nair, Director, Environmental Resources Research Centre (ERRC), Thiruvananthapuram for his wise guidance, motivation, enthusiasm, and continuous support, without which this piece of research work would not have been taken shape. I could not have imagined having a better advisor and mentor than him.

My sincere thanks are also due to Dr. M.P. Nayar (Former Director, Botanical Survey of India), President, Governing Body, Environmental Resources Research Centre, for his encouragement and support and also for offering me internship opportunities in working with diverse research projects.

I am also deeply indebted to Dr. P.K. Shaji, Scientist and Research Coordinator, Environmental Resources Research Centre, for his encouragement, insightful comments and advice which helped me keep the focus throughout the study.

My grateful thanks are also due to Dr. T. Shaju, Scientist, Jawaharlal Nehru Tropical Botanic Garden and Research Institute, Palode, Thiruvananthapuram, for his valuable advice and support especially in the identification of plants and preparation of data base on floral resources of the study area.

I also express my sincere gratitude to Dr. E. Saravanan, Senior Scientist, Centre for Earth Science Studies (CESS), Thiruvananthapuram, for his valuable suggestions and support, particularly in the preparation of thematic maps. My thanks are also due to his Research Scholar Ms. C.S. Lekshmi, for her involvement and help in the generation of thematic maps with Geographical Information System.

The support extended by the Central Soil Testing Laboratory (Govt. of India), Thiruvananthapuram, in analyzing the soil samples is gratefully acknowledged.

I register my gratefulness and appreciation to my colleagues at the Environmental Resources Research Centre, Mr. R. Rajakrishnan, Ms. Devi K. Balan, Ms. K.G. Divya, Ms. M. Sounya, Mr. P.C. Roy Chacko, Mr. P. Solomon and Mr. S. Shaju who rendered their valuable assistance and cooperation all along the study.
My heartfelt thanks are also due to all my friends for constant encouragement and support which played a crucial role in the completion of my Doctoral research.

Last but not the least I would like to thank my parents and sister. They were always supporting and encouraging me with their best wishes and prayers.

I do not want to conclude without thanking my Almighty Lord Jesus Christ for answering my prayers, for offering me bountiful strength and courage to handle every obstacle that surfaced in the path of endeavors.

ALEXANDER T
