Acknowledgement

At the beginning, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this research thesis and made it an unforgettable experience for me. A wonderful ~5 year close association with teachers, colleagues and friends so warm, affectionate and responsive. It has been an invaluable learning experience for me in a number of ways, and I will always be appreciative to Shivaji University, Kolhapur for availing me chance to learn and view chemistry in an entirely new way. The learning I got and affection I received are my lifetime assets.

I would like to take this opportunity first, to pay my sincere admiration to my research guide, “Prof. M.B. Deshmukh”, former Head of Department of Chemistry and Co-ordinator of Department of Agrochemicals and Pest Management, whose motivation, inspiration and persistent guidance have led me to bring my dream to reality. I must also mention that he possesses a remarkable potential in Chemistry and a wonderful research guide bearing high values of life with humble simplicity, which is quite rare.

First of all, I want to thank “my family” for their encouragement from the very beginning. I am immensely indebted to my respected and beloved parents. It wouldn’t have been possible to write this doctoral thesis without the extreme strength, love, understanding and most precious blessings I received from them.

I cannot even begin to express how thankful I am for my “Mama” and “Mami”, since they have always been the ones who have believed in me and pushed me to keep going, even when things seem impossible. I am so thankful to have them in my life. It was under their watchful eye that I gained so much drive and an ability to tackle challenges head on.
I owe every bit of my existence to my mother “Shalan”, and my late beloved grandfather “Shripati” who lightens the joyness of learning attitude in our family. I would like to thank my maternal brothers, “Shubham”, “Rutuja”, and “Sujay”, my sister “Vaishali”, yonger brother “Nivas”, my brother in law “Rajendra” and elder brother “Dhondiram” for the love, encouragement and support they have given me.

My sincere thanks to Hon. Vice-chancellor “Prof. N. J. Pawar”, former Vice Chancellor “Prof. M. M. Salunkhe”, former Head of the department of Chemistry “Prof. S.R. Patil” and Head of the department of Chemistry “Prof. M.A. Anuse”, Shivaji University, Kolhapur for providing me financial, academic and technical support and facilities during research work.

I gratefully acknowledge and extend my heartfelt gratitude to all my teachers in the Department of Chemistry, “Dr. Mrs. R.S. Salunkhe”, “Dr. U.V. Desai” and “Dr. D.M. Pore” for their support and encouragement.

It is quite a challenge to put on paper how much I appreciate all those who have supported me through this experience. I am thankful to have had the opportunity to work with “Dr. Prashant Anbhule”, “Dr. Sandip Sankpal”, “Dr. Dipti Patil”, “Dr. Krishna Alsundkar” and “Dr. Sonali Salunkhe” over the last few years. They have not only become my best friends but have taught me the in and out of the lab and chemistry.

I am also thankful to my departmental Colleagues “Prasad Patil”, “Digambar Kumbhar”, “Dattatraya Pawar”, “Abhijit Mulik”, “Dattatraya Chandam”, “Mayur Aitawade”, “Mrs. Suryabala Sawant”, “Makrand Kulkarni” and all the research students of Department of Chemistry for their wholehearted co-operation. This process over the last few years has not only given me the chance to learn so many aspects of chemistry but also to be involved in so many lives on campus. I am grateful and honored to have been
able to serve here and am excited to watch the group grow in the future. I shall always cherish my interactions/discussions with you whether in the field or off the field, whether on a personal level or a group forum. It’s indeed hard for me to let go all those treasured moments, which we have spent together. Thank you all. Do pardon me if I ever hurt your feelings in any way.

I am also greatly indebted to my respected past teachers “Dr. B. N. Pawar”, “Dr. S. S. Patil”, “Dr. A. R. Mulik”, “Dr. S. D. Jadhav” and “Dr. Mrs. S. R. Desai” for their crucial contribution. Without their timely suggestions and guidance this work could not have achieved its destination.

It’s my fortune to gratefully acknowledge the support of some special individuals. I am much indebted to “Sau. & Shri. Prof. Jayaprakash Shinde”, “Sau. & Shri. Dr. Shashikant Kadam”, “Sau. & Shri. Dattatraya Chavan”, “Dr. Ravindra Palakar”, “Sau. & Shri. Sunil Khade”, “Sau. & Shri. Jaywant Deshmukh”, “Mr. Gopal Khude”, “Mr. Sharad Kashid”, “Mr. Hanamant Deshmukh” and “Dr. Anandrao Mandhare” for their generous care. All of you have supported and kept me growing in faith through trying times. Thanks for always listening when I need to talk and for the encouraging words that made such a difference in my journey here.

Life blessed me with the opportunity to meet my wonderful friends “Ashok Ravalekar”, “Mandar Kulkarni”, “Mohan Shinde”, “Ganesh Kokate”, “Shailendra Sankpal”, “Mrs. Sonal Sankpal” and “Vishal Bairwa”. They were always with me during the happy and hard moments. Thank you doesn’t seem sufficient but it is said with appreciation and respect to all of them for their constant friendly support, care, understanding and precious friendship.

Before I close I must mention several people who were especially instrumental in allowing me to complete this milestone in my life. I particularly want to thank “Dayanand Patil”, “Vilas Khakale”, and my
brother in law, “Manoj Nikam” for helping me so immensely through the final stretch of the entire writing process. Thank you for your constant encouragement, support and friendship over the last few years. In all things God’s plan is always perfect and I am thankful for those constant reminders.

Finally, and most importantly, my loving thanks goes to my family, my beloved wife “Sonali”, who has shown great understanding, unyielding devotion and unwavering love towards this work as well as everything else I do, and my wonderful children, my lovely daughter “Vaidehi (Krishna)” and my charming boy “Anshul”, who are the meaning of my life. Their unconditional love and emotional support has been the greatest motivation for me to keep progressing during these years. Their prayers are a large part of the reason I am writing this today and I am thankful to have been a part of your lives.

“Going into Chemistry requires dedication, passion and commitment. Sure, it can be enjoyable and exciting but Science must be an interface with society, and that means you can’t just enjoy the excitement of discovery, but you must also consider how to bring, what you discover, to benefit other people.”

“Mr. Dadasaheb Krishandeo Salunkhe”
