BIBLIOGRAPHY

(127 - 143)
BIBLIOGRAPHY

Acheri, J

(1) Result on fixed point theorems.

(2) Some fixed point theorems for a class of mappings.

Antonovskii, M.V.; Boitvinskii, V.G.; and
Serymasov, I.A.

(1) Topological semifields. Tashkent, 1960

(2) Metric space over semifields,
Tashkent state University of Samarkand.

Banasch, S

(1) Sur les operations dans les ensembles abstraits et leur application aux equations integrales.
Fund. Math. 3 (1922), 133-181.

Boyd, D.W., and Wong, J.S.W.

(1) Another proof of the contraction mapping principle.

(2) On non-linear contractions.
Bolles, L. P., Kirk, W. A. and Steiner, F. E.

(1) Normal structure in Banach spaces

Browder, F. E.

(1) On the convergence of successive approximation of non-linear functional equations,

(2) Non expansive nonlinear operators in Banach space,

Browder, F. E. and Petryshyn, W. V.

(1) The solution by iteration of nonlinear functional equations in Banach space.

Byrant, V. B.

(1) A remark on fixed point theorem for iterated mappings.
*Amer. Math. Monthly* 75 (1968), 399-400.
Chatterjea, S.K.

Chen-Chih Yeh.

1. Remark on common fixed point of commuting mappings in L-Space. *Mathematica (Iasi)*, 34 (1979), 81-95.

Cirić, L.B.

(4) On a family of contractive maps and fixed points.

Consava, V.

(1) Common fixed point theorem for commuting maps on metric spaces.

Czerwik, Stefan

(1) Fixed point theorems and special solution of functional equations.
Scientific pub. of the University of Silesia, Katowice, 1980.

Das, K.M. and Naik, V.K.

(1) Common fixed point theorems for commuting maps on a metric space.

Dalbosco, P., Ferraro, O and Rossati, E.

(1) Teoremi di punto fisso per applicazioni negli spazi di Banach.
Diaz, J. B. and Metcalf, F. T.

(1) On the set of subsequential limit points of successive approximations.

Diviccaro, L., Fisher, B. and Soessa, S.

(1) A Common fixed point theorems of Gregores type.

Engel, H. W.

(1) Weak convergence of asymptotically regular sequences for non-expansive mappings and connections with certain Chebyshev centers.

Fischer, B.

(1) Results on common fixed points on bounded metric spaces.

(2) "Mappings with a common fixed point."
(3) "Common fixed points of commuting mappings"

(4) "Common fixed point of four mappings"

(5) A fixed point theorem for compact metric space.

Fisher, B. and Sessa, S

(1) On a fixed point theorem of Gregus

Fukushima, H

(1) On non-contractive mappings.

Gahler, S

(1) 2-metrische räume und ihre topologische structure,
(2) In a communication to the author

Goebel, K

(1) An elementary proof of the fixed point theorem of Browder and Kirk.

Goebel, K., Kirk, W.A. and Shimii, I.N.

(1) A fixed point theorem in uniformly convex spaces.

Goebel, K. and Zlotkiewicz, E

(1) Some fixed point theorems in Banach space.

*Colloquium Math.* 23 (1971), 103-106.

Granas, J.R.

(1) A fixed point theorem in Banach space

Gupta, V.K. and Shrivastava, P

(1) A note on common fixed points.

Gupta, V.K. and Banagathan, S.

(1) Fixed point theorem for mappings which are not necessarily continuous.

Hardy, G. and Rogers, T.

(1) A generalization of fixed point theorem of Reich.

Hussain, S.A. and Schaal, V.W.

(1) On common fixed points for a family of mappings.
(2) A fixed point theorem with functional inequality.

Iskii, K.

(1) On common fixed point theorem for mapping.
Isaki, K., Sharma, P.L., and Sharma, B.K.

1. Contractive type mapping on 2-metric space.

Junack, G.

1. Commuting mappings and fixed points.

Kannan, R.

1. Some result on fixed point theorems.

2. Fixed point theorems in reflexive Banach space.

Khan, M.S.

1. "Remark on some fixed point theorem".

2. Commuting mapping and fixed points in uniform spaces.
(3) Fixed points and their approximation in Banach spaces for certain commuting mappings.

Khan, M.S. and Swalch, H.

(1) Fixed point theorems for generalised contraction.

Khan, M.S. and Imad, H.

(1) Some common fixed point theorem.

Kirk, W.A.

(1) A fixed point theorem which does not increase distance,

(2) On mappings with diminishing orbital diameters,
Kolmogorov, A.N., and Fomin, S.J.

(1) Functional Analysis

Maiti, M., Pal, T.K.

(1) Generalization of fixed point theorems.

Maiti, M. and Pal, T.K., Acharya, J.

(1) Remark on some fixed point theorems,

Meir, A., and Keeler, E.

(1) A theorem on contractive mappings.

Mukherjee, R.N.

(1) Common fixed point of some nonlinear mappings.
Pachpatte, B.G.

(1) On ciric's type maps on a non-unique fixed points.  

Park, S.

(1) Fixed points of f contractive maps.  
Rocky Mountain J. Math. 8(1978), 743-750.

Park, S. and Rhoades, B.E.

(1) Extension of some fixed point theorems of  
Hegedus and Kheahara  

(1) An extension of Banach contraction principle  
through rational expression.  

Reainut, S.S. and Sharma, P.L.

(1) Fixed point theorems in Banach spaces,  
Rakotch, E.

(1) A note on contraction mappings.

Reei, L. and Reei, K. P. R.

(1) Fixed point theorem on complete and compact spaces.

Reich, S.

(1) Kannan's fixed point theorems.
(2) Some remarks concerning contraction mappings.

Reilly, I. L.

(1) Quasi Gage space.
(2) A note on Quasi space,
A comparison of various definitions of contractive mappings.

**Sastry, K.P.R., Naidu, S.V.R., Rao, I.N.N., and Rao, K.P.R.**

Common fixed points for asymptotically regular mappings.

**Scheuder, J.**

Zur theorie stetiger abbildungen in funktional raumen

(2) Dev Fix punkets in funktional raumen
*Studia Math.* 2 (1930), 171-180

**Sessa, S.**

On a weak commutativity condition in fixed point considerations.
Sharma, A.K.

(1) Some results on periodic and fixed point.

Sharma, P.L., Sharma, B.K. and Kaeki, K.

(1) Contractive type mapping on 2-metric space.
*Math. Japan.* 21(1976), 67-70

Sharma, P.L. and Yule, A.K.

(1) Fixed point theorem under asymptotic regularity at a point II.

Shih, Man, Heiang and Yeh, C.C.

(1) On fixed point theorems of contractive type.

Singh, S.K.

(1) On common fixed point of commuting mappings.
Singh, S.I., and Singh, S.P.

(1) A fixed point theorem.

Singh, S.P., and Mehta, B.A.

(1) On common fixed point theorems.

Smart, R.D.

(1) Fixed point theorems.

Swaminathan, S.

(1) Fixed point theory and its applications.

Szabo, V.

(1) Theory of orbits.

(1) Some fixed point theorems on expansive mappings.

Williams, E.D. and Gillespie, A.A.

(1) Fixed point theorems for expanding maps.

Wong, C.S.

(1) Generalized contractions and fixed point theorems.

(2) Common fixed points of two mappings.
