ACKNOWLEDGEMENTS

It gives me a deep sense of gratitude to thank my research guide Prof. V. S. Patil, Professor- Chemical Engineering Department for his constant encouragement, valuable & constructive suggestions, and moral support throughout the period of this research work. It has been a privilege for me to work under his valuable guidance.

My sincere thanks are due to our Hon’ble Vice – Chancellor Prof. S. U. Meshram for providing laboratory facilities and positive attitude and support towards research at NMU. I am grateful to Prof. S. Mishra, Director, UICT, NMU, Jalgaon for giving me the opportunity to carry out the Ph.D. work in UICT. I am also thankful to Prof. J. B. Naik, Head, Chemical Engineering Department and Prof. R. D. Kulkarni, UICT for their support.

I sincerely appreciate the timely guidance and co-operation extended by Dr. S. V. Patil and to Dr. Bhushan L. Chaudhari, School of Life Science Department of NMU.

I extend my special thanks to Mr. T. D. Deshpande, Dr. U. D. Patil, Mr. R. S. Sirsam, Mr. M. L. Bari and other members of Chemical Engineering Department for their valuable advice and moral support throughout the work. My sincere thanks to Dr. A. M. Gujrathi for his constant support and encouragement during my Ph.D. work. I would also like to thank Dr. A. S. Churasia, Ms. Supriya Patil and Mr. K. Nandiwale for their help in getting scientific literature and support throughout the work. I also thank my other colleagues having created a good environment to carry out the work. I am also helpful to my faculty colleagues Dr. J. S. Narkhede, Dr. N. G. Shimpi, Dr. V. R. Chaudhari, Mr. A. K. Goswami for helping me during the course of this study. I am thankful to Dr. D. S. Dalal, School of Chemical Science, NMU, Jalgaon for his help in analysing FT-IR and sharing important literature and update knowledge on C, N analysis. I am thankful to Dr. M. P. Moharil, P.K.V., Akola for helping in a cellulase assays for enzyme identification. I am also be
grateful to Prof. V.S. Zope and Prof. Harshika Kaul, M.J. college, Jalgaon for rendering facilities to test calorific value of substrate by bomb calorimeter.

Besides all the faculty members and other friends, I would also take this opportunity to thank Mr. M.S. Patil and Mr. A.M. Divate for their extended help. I acknowledge the financial support extended by University Grant Commission (UGC), New Delhi in the form of research project.

Finally, I would like to sincerely thank people who helped me either directly or indirectly in this thesis. Scientific research is a group activity. It is not possible without the help and suggestions of people.

This work could not have been completed without the moral support from my loving parents Smt. Shakuntala and Shri. Anantrao B. Bathe. I am unable to put my feelings in words to express the support that I received from my loving wife – Smita. Her patience, support, confidence, immense encouragement helped me in devoting late night hours for this study and made this work possible.

Last but not the least, I humbly and honestly thank to my Satguru for bestowing me HIS DIVINE BLESSINGS and pray to gain an inner strength with patience.

GANESH A.BATHE
