ACKNOWLEDGEMENT

First and foremost, I owe my deepest and sincere gratitude and regards to my revered supervisor, Prof. (Dr.) Sankar Kumar Ghosh, Department of Biotechnology, Assam University, for the continuous support, motivation, enthusiasm, and immense knowledge in my Ph. D. study and research. He has provided me necessary infrastructure and resources to accomplish my research work. His guidance helped me throughout my research program as well as writing and presentation of this thesis. Truly, this would not have been possible without his kind supervision for which I sincerely thank him again.

I convey my sincere gratitude to the Honourable Vice Chancellor of Assam University for bringing forth the requisite resources for the smooth accomplishment of my work. I express my heartiest thanks to the Dean, Hargobind Khurana School of Life Science and Head of the Department of Biotechnology for their constant help and moral support during the study.

I would like to extend my cordial respect to Dr. Thiyam Ranadhir Singh, Assistant Professor, Central Agricultural University, Imphal for his valuable suggestions and untried help at the very beginning of my research work and at the time of sample collection.

My sincere thanks go to Boni Amin Laskar, DBT-RA (III), Department of Biotechnology, and Wahengbam Romi, Scientist B, Institute of Bioresources and Sustainable Development (IBSD), Imphal for their valuable suggestions, and critical comments for the thesis work.

I am highly obliged and grateful to all the faculty members, technical and office staff of the Department of Biotechnology, for all kind of help and moral support.

I would like to appreciate all my colleagues Monika Ahanthem, Khomdram Bijoya, Shantanu Kundu, Pradosh Mahadani, Jagadish Hansa, Joyraj Bhattacherjee and Rosy Mondal for sharing of knowledge through various scientific discussions,
for the hard time we were working together, and for all the fun we enjoyed in the last four years. I would also like to thank all my lab juniors Bishal, Fazlur, Ruhina, Rajib, Anil, Javed, and Mohua and laboratory attendant, Abhijit and Sukumar for their active co-operation and help during the experiment and shared time for deciphering knowledge in the field of my research and throughout completion of this thesis. I am also thankful to my seniors Biswajit da, Mridul da, Biswadeep da, Sneha di and Kulendra da.

Finally, I take this opportunity to express my profound gratitude from my deep heart to my beloved parents, Kshetrimayum Ranjit Singh and Kshetrimayum (O) Radhamani Devi, and my siblings. Their love, inspiration and support is my driving force to finish this journey. I owe them everything and wish I could show them just how much I love and appreciate them. I would also like to thank my brother-in-law for his selfless support and encouragement during the course of my Ph.D. Finally, I would like to extent my heartfelt thanks to all my well-wishers for their moral support and constant inspiration throughout my life and whose blessings are always with me and shall remain in future too.
