ACKNOWLEDGEMENTS

First and foremost, I owe my deepest thanks to the Almighty. In humility, I thank you for your grace and mercy that allowed me to complete this milestone. I have been blessed with intellectual guidance, inspiration and morale support contribution from many dedicated resource persons, without whom the completion of this milestone would only be a dream. I am sure that this acknowledgement cannot be complete and words are not enough to express my sincerest appreciation to these people.

I would like to offer my appreciations and thanks to my supervisor and facilitator Dr. Inderpreet Singh Ahuja, Professor, Department of Mechanical Engineering, Punjabi University, Patiala, for his support and guidance throughout the Ph.D. program. His invaluable guidance and advice relating to the research work have been of immense benefit to me. Without his support, encouragement, fruitful discussions and guidance, this work would never have been possible. With his support, I was able to sustain my enthusiasm for the research despite many adversities. His insights in the field of Industrial and Production Engineering have added value to the dissertation in content and presentation.

I would like to thanks the executives from various Indian Manufacturing Industry, who despite their extremely demanding schedules, have shared their experiences with me and made this research project feasible.

I put on record my sincere thanks to all who helped me in getting the response of the ‘JIT Questionnaire’ survey. In addition, I thank all my faculty colleagues, office staff, friends, students, well–wishers and other resource persons, who have immensely contributed in compilation of the research work in the present form.

I cannot close these prefatory remarks without expressing my deep sense of gratitude and reverence to my dear parents for their inspiration, blessings and endeavour to keep my moral high throughout the period of my work. I feel extremely happy to express my sincere appreciation to wife Dr. Gurpreet Kaur and son Divraj Singh. Thank you for always being there and for making this pursuit worthwhile.

(GURINDER SINGH)
