Acknowledgement

I am deeply thankful to my Thesis supervisor, Dr. R. John Xavier, Department of Physics, Periyar E.V.R College, Trichy for his valuable guidance, constant help and scholarly consolation. Though thanks are such a little word no bigger than a minute it has a world of appreciation and gratitude in it. His indefatigable hard and insistence of perfection have made my project work a rewarding experience.

I am extremely grateful to Sri Sai Ram Engineering College management, Principal, Head, Department of Science and Humanities for his constant encouragement and useful discussions.

It is my paramount duty and responsibility to heartily as well as profusely thank my M.Phil, co-guide Dr. K.R. Murali, Scientist, ECMS division, CECRI, Karaikudi and I deem it a rare privilege to do my research work under his inspiring, invaluable and meritorious supervision. He is a might source of inspiration, constant encouragement, unsharing commitment and spirited dynamism.

I express my sincere thanks to the physics department staff member Periyar E.V.R College, Sri Sai Ram Engineering College for their constant help and immense encouragement.

I record my gratitude to my peer group of team for cheering me up then and there and encouraging me.

I am very grateful to my parents and family members for their support and finally I thank all my friends who directly and indirectly helped in my thesis work.

It is impossible to thank every one who has helped me in this study individually and hence I place on records my sincere thanks to one and all associated with this study.
