CHAPTER – I

INTRODUCTION

1.0 Introduction

1.1 Education and Society

1.2 Teaching and Learning

1.3 Theory of teaching and learning

1.4 Teaching Strategies

1.5 Teaching Strategies and Models of Teaching

1.6 Models of Teaching

1.7 Information Processing Model of Teaching

1.8 Concept Mapping Model

1.9 Concepts

1.10 Concept - Maps

1.11 Advantages of Concept Maps

1.11.1 Advantages for Learners

1.11.2 Advantages for Teachers

1.11.3 Advantages for Curriculum Development

1.11.4 Advantages for Evaluation / Assessment

1.11.5 Advantages in complex laboratory conditions

1.12 Concept Attainment Model

1.12.1 Theory of Concept

1.12.2 Objectives of Concept Attainment Model

1.12.3 Syntax of Concept Attainment Model

1.13 Need of the study

1.14 Rationale of the study
1.15 The Problem
1.16 Definition of key terms
1.17 Objectives of the study
1.18 Hypotheses
1.19 Delimitations of the study

CHAPTER -II
REVIEW OF RELATED LITERATURE
2.0.0 Introduction
2.1.0 Studies Exploring the Effect of Concept Mapping Model
2.1.1 Studies related to Concept Mapping Model Outside India
2.1.1.1 Studies related to cognitive gain
2.1.1.2 Studies related to other areas
   i) Studies related to motor skills facilitator
   ii) Studies related to curriculum development
   iii) Studies related to psychological concepts
   iv) Studies related to problem solving skills
   v) Studies related to teacher education programme
2.1.2 Studies related to Concept Mapping Model in India
2.1.2.1 Studies related to cognitive gain
2.1.2.2 Studies related to other areas
   i) Studies related to Language
   ii) Studies related to teacher education programme
2.2.0 Studies Exploring the Effect of Concept Attainment Model
2.2.1 Studies related to Concept Attainment Model Outside India
2.2.2 Studies related to Concept Attainment Model in India
2.2.1.1 Studies related to cognitive gain

2.2.1.2 Studies related to other areas
   i) Studies related to Children with special needs
   ii) Studies related to psychological concepts and strategies of learning process
   iii) Studies related to transfer of learning
   iv) Studies related to language and thought

2.2.2.1 Studies related to cognitive gain

2.2.2.2 Studies related to other areas
   i) Studies related to psychological concepts and strategies of learning
   ii) Studies related to teaching for discrimination and generalization
   iii) Studies related to transfer of training
   iv) Studies related to teacher education programme
   v) Studies related to psychological concepts
   vi) Studies related to language
   vii) Studies related to discrimination and generalization
   viii) Studies related to problem solving skills
   ix) Studies related to curriculum development

CHAPTER III

DESIGN AND PROCEDURE OF THE STUDY
3.1.0. Mastery of model

3.1.1. Theoretical understanding of Concept Mapping Model and Concept Attainment Model

3.1.1.1. Theoretical Understanding of Concept Mapping Model
 i) Syntax of Concept Mapping Model

3.1.1.2. Theoretical Understanding of Concept Attainment Model
 i) Objectives of Concept Attainment Model
 ii) Syntax of Concept Attainment Model

3.1.2. Developing lesson plan

3.2.0. Studying the effectiveness of Concept Mapping Model and Concept Attainment Model

3.2.1. Design

3.2.3. Population

3.2.4. Sample

3.2.5. Tools Used in the Study

3.2.6. Treatment

3.2.7. Statistical Analysis

CHAPTER IV

4.0. Introduction

4.1. Analysis and Interpretation
4.2 Conclusion

4.3 Educational Implications

4.4 Suggestion for further research

CHAPTER V

SUMMARY

BIBLIOGRAPHY

APPENDICES

TABLES

Table 1.1 Families of Models of teaching
Table 1.2 Information Processing Models
Table 3.1 Relationship between Raw scores and Categories
Table 3.2  The Schematic Presentation of Activities Undertaken During The Experiment

Table 3.3  Concepts and sub concepts of Biology taught to Experimental

Table 4.1  Concept Mapping model and Traditional method
Table 4.2  Concept Attainment model and Traditional method
Table 4.3  Comparison between Concept Mapping Model and Concept Attainment Model
