Acknowledgements

It is my great privilege to extend my deep sense of gratitude to my respected teacher and research supervisor Dr. (Smt) Parvathi C. S., Professor & Chairperson, Department of Instrumentation Technology, Gulbarga University, Jnanatunga P.G. Centre, Raichur for her invaluable guidance, timely help, meticulous care and everlasting zeal which were of immense help in bringing out my research investigations in the thesis form. The remarks and ingenious suggestions made by her throughout this work were really interesting, exciting, and fruitful that literally drove me to put in my best of efforts. A great moral support given by her really made me complete the work. I am really grateful to her. I feel it wise and matter of pride to work under her guidance.

I am also greatly indebted to my another beloved teacher Dr. P. Bhaskar, Professor, Department of Instrumentation Technology, Gulbarga University, Jnanatunga P.G. Centre, Raichur, for his valuable suggestions, encouragement all through my research work.

I extend my great sense of gratitude to Dr. Mallikarjuna Holi, HOD, Department of Biomedical electronics Bapuji Institute of Technology Davanagere for his valuable guidance and suggestions for the work.

I sincerely thank Dr. Manjunath Prasad, HOD, Department of Electronics, Dayanand Sagar Institute of Technology, Bangalore, for his encouragement, guidance and support.
I am very grateful to Mr. Mrutyunjaya Hiremath, Director and Ms. Jayaprada Hiremath, Emath Technologies, Bangalore for having given a strong support during the research work. I would also like to thank all the staff members of Emath technologies for their immense help.

My deep sense of gratitude to Dr. P K Govind Chairman, Karthik Foundation, Bangalore for his encouragement and constant support during the research work.

My salutations to Mrs.Meenakshi Balakrishnan, Director, Sri Kumaran Group of Institutions, Bangalore, from whom I have derived great sense of inspiration and strong will power to hold on to life and work strongly at all times. The timely help and support that she rendered enabled me to complete my research.

My heartfelt thanks to Mr. S. K. Shekar and Mrs. Padmini Y. N., Department of Electronics, SBMJC Bangalore who have instilled courage and hope in me to do anything at any time. It is the language of electronics which has bound us together. My salutations to them.

My gratitude to Smt.Saroja Appachu, Principal, Presidency P U College, Sira, Tumkur district for having helped me with the language edit of the thesis.

Dr.(Smt.)Bhagyajyothi, Dr. L. Shrimanth Sudheer, Dr. Immanuel, Smt. Sapna, Smt. Bharati S. R, research colleagues need special mention as they stood by me all through my journey of the course.
I also thank my research colleagues Dr. Manjunatha Reddy, Associate Professor, Dept. of Electronics, Govt. First Grade College, Shikaripura, Shimoga and Dr. Nagabhushana Katte for their continuous support and encouragement.

I bow to my Guru Smt Pushpa Nagaraj who was the pillar of support to me.

My sincere thanks to Mr. Vinod Kumar B. S., Venkatesh K. G. Partners and Staff members of M/s RVS & Co, Chartered Accountants, Bangalore for their continuous support during the course of my work.

My thanks to K L Nagaraj Rao for his support during my work.

I would not have been what I am today but for my husband, Sri Raghavendra H.S. who takes pride in all my success. He is the wellspring of inspiration to me. I salute him from the bottom of my heart.

My daughter Poorvitha H.R. was willing to forego several comforts and the most luxurious thing of mother’s love and allowed me to work on the course. I thank her from the core of my heart.

I would like to thank my Late In laws Smt.B.S.Shantha & Sri Srinivasa Rangaiah H.R. I am sure I have their blessings from the Heaven above and my Parents, Smt.Shantha V & Late.V.Dheerandrachar, for their blessings to me in completing this research work.
