ACKNOWLEDGEMENTS

First and foremost, I would like to convey my sincere and earnest gratitude to my mentor Dr. K. S. Girish, former Assistant professor, Department of Studies in Biochemistry, University of Mysore, and currently, Associate Professor, Tumkur University, Tumkur. He moulded me from a naïve student to a good researcher; he taught me all about research from the scratch. I am extremely grateful to him for having given me the privilege to work under his guidance. I could not have asked for a better a mentor than him for my Ph.D study. His continuous guidance, extreme patience, critical assessment, and encouragement, helped me to evolve not only as a good researcher, but also as a good human being. He created a congenial and disciplined environment in the laboratory, which helped me deliver the best possible results in this study. I owe this work to him and seek his blessings in all my future endeavors.

I am extremely indebted to Prof. K. Kemparaju for his constant critical assessment, valuable inputs and encouragement throughout this study.

I am in dearth of words to express my deep sense of gratitude to my teachers Prof. Cletus J. M. D’ Souza, Prof. M. Karuna Kumar, Prof. B. S. Vishwanath, Dr. K. Gopal Marathe and whole of the Department of Studies Biochemistry, University of Mysore, Mysore for their constant support and timely suggestions throughout my research work. I also seek their blessings for all my future deeds.

I share the credit of my work with my fellow lab-mate and friend, Mr. Hemshekhar M, for his incessant support and encouragement all through this study. He has been the pillar of support during all the ups and downs of my life. I thank him from the bottom of my heart.

I was extremely lucky to work with such cordial and co-operative lab-mates: Mr. Sebastian Santhosh M., Ms. Sunitha K., Mrs. Jnaneshwari S., Mr. Shanmuga Sundaram M., and Mr. Manoj Paul. I profusely thank them for all the support and help.
My sincere thanks to Dr. S. Naveen, DFRL, Mysore, for the generous gift of chemicals and reagents required for this study. I also thank Dr. M. S. Kumar for helping me with platelet aggregation studies. I am extremely grateful to Dr. S. Devaraja, Assistant Professor, Tumkur University for his constant encouragement and help during this study.

My special thanks to Mr. Yarishwamy M., for his relentless support, help and encouragement for my research.

I am also grateful to thanks to all the M.Sc. students and research scholars Department of Biochemistry, University of Mysore, and other volunteers for having donated blood required for this work.

I am extremely thankful to, Mr. Bidhan Chandranayak and Mr. Giridhar S., for giving me access to the necessary literature whenever needed.

It is my immense pleasure to thank my colleagues, Mr. Gajanan, Mr. Austin, Mr. Prasad Kolapalli, Dr. Ushanandini, Ms. Zahra, Mr. Vikram Joshi, Mr. Lakshmikanth, Mr. Nanjaraj Urs, Mr. Suvilesh, Mr. Akshay, Dr. Mahadeshwara swamy, Mrs. Manjula, Mr. Gowtham, Ms. Shylaja, Ms. Chaitra, Ms. Shancy, Ms. Savitha, Mr. Venkat Rao, Ms. Rachana Sharma, Ms. Sowmya P.K., Mrs. Shubha, Mrs. Mamatha, Ms. Shokofe, Mrs. Shirin Tarbiat, for all the support.

I extend my thanks to Dr. Jyothi M, Mr. Bettegowda BK, Mr. Suresh and Mr. Aziz Ulla, non-teaching staffs for their co-operation during my stay in the department.

It gives me an immense pleasure to thank all my friends, especially, Shubha S., Sakina Razzaq, Deepthi Loknath and Sumitra M for their constant encouragement in all aspects during the course of this investigation.

I bow my head to my father Mr. K. Ram Mohan and mother Mrs. Deepthi Mohan, for their upbringing, constant support and encouragement throughout my life and career, without whose help I would not have completed this research work. It is my true pleasure to thank my little brother Mr. Anurag R, for his help and support during my study.
I convey my special thanks to my Grandfather Mr. A. S. Krishnan, Grandmother Mrs. Shashikala and my uncle Mr. A. K. Dileep Kumar, for their constant encouragement.

I also take this opportunity to thank all my cousins and relatives for their relentless support and pep talks.

Special thanks to Central instrumentation facility, Institute of Excellence (IOE), University of Mysore, Mysore, for providing the necessary facilities to carry out the experiments.

I express my sincere thanks to the Institutional Human Ethical Committee (IHEC), University of Mysore, Mysore, for granting me the permission to work with human blood samples, and for its valuable suggestions during my research work.

Finally, I thank the Journal of Biological Chemistry from which I borrowed the attractive cover page for this thesis.

(Thushara R. Mohan)
