Acknowledgement

Even though I sufficiently comprehend that this is not even a glint of light in the gigantic aura of science, so far this is the most significant accomplishment in my life. Its materialization would be impossible without the people who supported and believed in me. More often words are incapable of expressing the heart's language. Within the limits of lexicon, I am humbly expressing the deepest sense of acknowledgement to all concerned.

With profound gratitude and respect, I would like to depict my deep sense of obligation and heartfelt indebtedness to Dr. K. Radhakrishna Scientist “G”, Additional Director, DFRL, Mysore, India for his meticulous guidance and constant supervision, affectionate encouragement and timely advise throughout the course of this study, inspite of his hectic schedule without which the work won’t be possible. I consider it my blessed privilege and matter of pride to work under the potential guidance of a versatile academician.

I deem it my privilege in expressing my reverence and thankfulness to our magnanimous Director, Dr. H.V. Batra, DFRL, Mysore and to Dr. A.S. Bawa, former Director for their sustained interest, constant encouragement and unending benevolence during the tenure of study. I am also thankful to them for permitting me to carry out this study. I owe my sincere gratitude to DRDO for giving me an opportunity to pursue my PhD programme at DFRL Mysore.

With profound respect, I wish to express my sincere gratitude to Dr. M.C. Pandey, Scientist “F, Project Co-ordinator, FDAPT division, DFRL, Mysore, India for his timely assistance in the preparation of the thesis, constructive review of manuscript and valuable guidance.

I am cordially indebted to to Dr. K. Jayathilakan, Scientist “D” for his never ending support in preparation and correction of manuscript, valuable suggestions, constructive criticism and pleasant co-operation for the framing up and successful completion of this research work.

I acknowledge with sincere gratitude the help and support given by Mrs. K.V. Kumudavally, Scientist “E” FDAPT division.
I wish to express my sincere gratitude to Mr. Jalarama Reddy, Ms. Feby Luckose and Mr. Hayagreeva for their ever ready help attitude which made things easier for me.

I wish to express my sincere thanks to Mr. V. Srikantamurthy, P & C, DFRL, Mysore for helping me in preparation of thesis

I remember with gratitude the help extended to me by Dr (Mrs) Shibly Varghese Scientist “C” during the course of the study.

I take great pleasure in thanking Mr. K.A. Sri Hari for the help and support for carrying out microbiological analysis. My immense thanks to junior colleagues – Mrs. Aisha Tabassum, Mrs. Khudsia Sulthana, Mr. P.T. Harilal, Mr. Shamachari, Mr. Rajkumar Aahirwar, Mr. J.J. Pinto, Mr. R. Sureshkumar, Mr. R. Upadhyaya, Mr. Gopal Singh, Mr. MS Narayananurthy.

I am very thankful to senior Scientists and colleagues of DFRL for the help rendered to me during the course of the study.

I express my sincere gratitude to Late Mr. HS Phanidrakumar and Mrs. B Bhagirathi and for their help and continued support which has proved useful in the successful completion of this work.

I am grateful to Padmasree Prof. JAK Tareen, Vice Chancellor, Pondicherry Central University and Dr. Loganathan, Registrar and Dr. Prathap Kumar Shetty, Head, Department of Food Science and Technology for granting me study leave and their constant support.

Last but not the least, I thank my family members for their moral support and prayers. Finally, I thank Almighty for giving me perseverance to complete the project.

(K.V. SUNOOJ)
