ACKNOWLEDGEMENT

I take this opportunity with much pleasure to thank all the people who have helped me through the course of my journey towards producing this thesis. There is a lot of inspiring forces, which supported me by their eternal divine and inspiring presence. I dedicate this page to each and everybody who have helped me to explore the expands of knowledge.

First and foremost, I take immense pleasure to express my sincere and deep sense of gratitude to my supervising guide and mentor, Dr. C. S. Paulose, Director, Centre for Neuroscience and Professor, Dept. of Biotechnology, Cochin University of Science and Technology for his sustained interest, creative suggestions, motivation and exemplary guidance throughout the course of this work. I am deeply indebted to him for providing me necessary facilities to complete this work. I am short of words to express my sincere appreciation for his patience and tolerance towards me. I extend my profound thankfulness for his constant encouragement and timely advice. I solemnly submit my honest and humble thanks to him for bringing my dreams into reality. His understanding, encouraging and personal guidance have provided a good basis for the present thesis. I could not have imagined having a better advisor and mentor for my Ph.D study. I am solemnly indebted to him more than he knows or words can ever convey.

I would also thank my Institution and my faculty members without whom this project would have been a distant reality. I offer my profound gratitude to Dr. E. Vijayan, ICMR Emeritus Professor, Centre for Neuroscience, Dept. of Biotechnology, Cochin University of Science and Technology for his help and encouragement during the period of my research. I would not have completed my thesis without the selfless help and encouragement from my dear friends. To my friends, who are the sunshine of my life and believed in my capabilities more than I did. Mr. Safeer Kamal, Mr. Thejas, Mr Varun Gopal, Mr. Vipin Wilfred, Mr Sanith Thomas Alexander, Mr. Abhilash, Mr Bineesh K, Mr Gopi Krishnan, Mr Vinoj Venu, Mrs Lit Kuriakose – thank you all for being there when I needed help. I will never forget the times you have spent to make me lively and cheerful even in the cloudiest of my days.

My joy knew no bounds in expressing the heartfelt thanks to my beloved Parents. My parents left no stones unturned in making my career successful, result oriented and humane, with enduring and patient full manner they stood by me during
the ups and downs of my life. They have been selfless in giving me the best of every thing and I express my deep gratitude for their love without which this work would not have been completed. I can barely find words to express all the wisdom, love and support given to me by my beloved parents, Mr. M.S. Mohanan and Mrs. P. L. Sobhana Kumari for their unconditional love, fidelity, endurance and encouragement. I take this moment to express my never ending love and respect towards them for their blessings. I am deeply indebted to my dear sister, Ms. Neetha MS, for motivating me in effectively working and accomplishing my goal. I owe my thanks to my beloved Ms. Prajna Behera for giving me untiring support through out of my Doctoral study. I am wordless in expressing my sincere gratefulness for her constant encouragement and love. She has helped me to see and practice life altogether in a different perspective, to stay focused and to go after my dreams.

Finally, I would like to thank everybody who was important to the successful realization of this thesis. Inconvenience deeply regretted for not mentioning anybody in my Acknowledgment.

My tribute.....to a number of animals who have paid a price with their lives and suffering in the name of human protection. I pay my tribute to their sacrifice and pray that it is not in vain.
