ACKNOWLEDGEMENT

The contentment that accompanies the successful completion of any task would be incomplete without mentioning the people who made it possible. I would like to express my heartfelt gratitude to all those who have directly or indirectly supported me in completing my PhD degree successfully. I thank almighty God for granting me the wisdom, help, and strength to undertake this research task and enabling me to its completion.

First of all I would like to express my heartfelt and profound gratitude to Dr. G. Viswanathan, Chancellor, VIT University for providing me this opportunity to carry out my research work under the vision “VIT - A place to learn; A chance to grow”. I also place on record my deep sense of gratitude to Mr. G. Sankar Viswanathan, Mr. Sekar Viswanathan, and Mr. G.V. Selvam, Vice Presidents, for their kind support and encouragement throughout the period of my research work.

My sincere thanks to Dr.V.Raju, Vice-Chancellor, for his constant encouragement and motivation in strengthening the research.

I would like to express my deep gratitude and respect to Dr. S. Narayanan, Pro-Vice- Chancellor, for his continuous help and moral support in all stages of this thesis. Without his help this research work would not have been completed successfully.

I express my profound gratitude to my research guide Dr. T. Arunkumar, Professor, School of Computing Science and Engineering, VIT University, for his valuable guidance and constant encouragement in the conception, execution, and completion of my thesis. His able technical guidance, expertise, and immense help have largely contributed to the success of my research work.

I would like to express my gratefulness to Dr. Siva Venkateswaran, Dean, School of Computing Science and Engineering, for his motivation, inspiration, and support.

It is my foremost responsibility to express my deep heartfelt gratitude and sincere respect to Prof. S. Babu, Dy. Director, Academic Research, for the inspiring words of encouragement and motivation.
I express my sincere thanks to the Doctoral Committee members Dr. P. Dhavachelvan, Pondicherry University, Puducheery; Dr. G. Gunasekaran, Meenakshi Engineering College, Chennai and Dr. B. K. Tripathy, School of Computing Science and Engineering, VIT University for their valuable suggestions and insightful comments during my research work.

I thank Prof. M.A. Saleem Durai, SCSE, Prof. V. Bhuvaneswari, SSL, and Prof. G. Venkatachalam, SMBS in extending their support and guidance towards my thesis. I also wish to thank the other teaching and non-teaching colleagues for their co-operation and support.

I am deeply indebted to my grandparents and parents for their moral support and encouragement. Finally, I wish to express my appreciation to the spirit of involvement and patient understanding shown by my wife Mrs. R. Vanathi and daughter A. Mahisha Shree in all possible ways.
