ACKNOWLEDGEMENT

Success is the progressive realization of worthy goal. Many able people failed to achieve anything worthwhile because they have not been properly guided. Success of any project depends solely on support, guidance and encouragement received from the guide and well-wishers. It gives me immense pleasure and contentment to acknowledge and thank all those who in big ways and small have contributed for this effort.

The Almighty, has been bestowing us with his blessings throughout our life. I thank thou for giving me the strength and patience to work through all these years so that today I can stand proud with my head held high.

I owe my indebtedness, my sincere thanks and heartfelt gratitude to my research guide, Dr. Nitinkumar B. Patel (Associate Professor, Department of Chemistry, Shree Jayendrapuri Arts and Science College, Bharuch), for his immense guidance, help, intellectual supervision, continuous encouragement and dedicated support for the timely completion of my work. I thank him, for the freedom of thought, trust, expression which he bestowed upon me. It is a matter of honor and pride for getting an opportunity to carry out the research work under his precious and able guidance.

Words are few to express the feeling of thanks and gratitude to the following persons.

My special words of thanks should go to Dr. K.K.Desai (Ret. Professor, Department of chemistry, VNSGU), Dr. Amar Parekh (Sr. Scientist, Ranbaxy Pharmaceutical Ltd, Gurgaon) and Mr. Pankaj Sheth, who served as a motivator and from whom I was getting continuous encouragement and support to complete my research work.

I owe a debt of gratitude towards Dr. N.M.Patel (Principal) and Dr. M.P.Pirzada (Head, Department of Chemistry, Shree Jayendrapuri Arts and Science College, Bharuch), for providing excellent facilities, without which it would not have been possible to finish this work. Special thanks are extended to all the teaching and nonteaching staff members of the institute for extending their support throughout the tenure of my research work.

I am highly thankful to University Grant Commission (UGC) for approving the minor research project and sanctioning the grant for carrying out my research work. I would like to extend my thanks to SAIF, Punjab University and Dr. J.J.Vora (Head, Department of chemistry, North Gujarat University, Patan) for providing all necessary instrumentation facilities.
I feel lucky and very proud to have colleague cum friends, Dr. Vikas M. Patel and Mr. Yashpal J. Solanki, who have been always participated with my problems, encouraged and rebuilt my confidence at appropriate stages.

I am at loss of words in which I express my inner sentiments towards my most esteemed father Shri Hiteshkumar B. Parekh and loving mother Smt. Jayshree H. Parekh for their support and pushing through the hard time, selfless love and blessings in my endeavor to carry out this research from beginning to end. I lack words to express my gratitude to my younger sister Mrs. Tanvi A. Parekh for her constant support and inspiration and to my wife Mrs. Monika N. Parekh for her unstopping flow of love and patience in my endeavors which encouraged me to reach my destination.

I express heartily feelings to all my friends, well-wishers and colleagues.

I do not want to exclude anyone who has contributed to this work in any form. However, it is not possible to mention everyone by name. Those who are not mentioned, but have shared parts of my life, should know that I thank all of them for everything they have done to me.

Date: Nirav Hiteshkumar Parekh
