ACKNOWLEDGEMENT

First praise is to Allah, the Almighty, on whom ultimately we depend for sustenance and guidance. Second, my sincere appreciation goes to my supervisor Dr. Abdul Mujib, whose guidance, careful reading and constructive comments was valuable. His timely and efficient contribution helped me shape this into its final form and I express my sincerest appreciation for his assistance in any way that I may have asked.

Sincere thanks goes to Professor Javed Ahmed (Head, Dept. of Botany) and Professor P S Srivastava (Dean, Faculty of Science) for providing neddecessary facilities.

I wish to express thanks to all my teachers Dr. M. Iqbal, Dr. Mahmooduzzafar, Dr. T.O Siddiqui, Dr. Javed Ahmed, Dr. M.P Sharma, Dr. Shahid Umar and Dr Altaf of the Department of Botany for their guidance.

A token of thanx to all the laboratory staffs Mr. Zakir, Mr. Noor Mohammad, Mr. Abdul, Mr Salim, Mr. Wahid, Mr. Idris, Mr. Imran, Mr Hashmat and Shyamsundar. I also thank the CIF members (Mr Sharma and Mr Irshad) for helping me during the course of study. To the library staff Mr Shamim and Mrs Zia Fatima, their contribution in making up of thesis is greatly acknowledged.

I thank my seniors and fellow labmates, Dr. Zohra, Dr. Nasim, Dr Mukhtar, Dr Junaid, Dr Ilah, Zahid, Rashmi and Mehpara for the stimulating discussions, for the time we were working together, and for all the fun we have had in the last few years.

To my seniors Dr Tanvir Ali, Dr Arshi, Dr Nidhi, Dr Tahueed, Dr Badar, Dr Salim, Dr Kafeel, Tanvir sir and Mathar sir their experience and timely suggestion is greatly acknowledged. Arshi baji's constructive suggestions helped me in improving my work. Thank is also due to my senior Sanghmitra, who is more a friend and sister to me, always giving valuable suggestions.

I would also like to convey thanks to the UGC for providing the financial means in form of meritorious fellowship. This dissertation is dedicated to my friend, who always encouraged me to follow my dreams and make things happen.

To all my dearest friends of pg, thanks for being there for me when I need you. Neha, thanks for being there for me since first grade. Thanks for accompanying me always Gurjeet, Salik, Sumit, Prabhakar, Mansoor, Imran, Ruqaya, Faheema, Farah, Divya, Alakh, Himanshu and Darakhshan, thanks for all your support and for believing in me.

For Alka, Pallavi, Jyoti, Zahid, Parvez, Maujiram, Ruby, Devender, Faizan, Kamran, Ajmal, Saba and Rifat thanks for generously contributed time, material, imaginative ideas and constructive criticism. The phytochemistry wouldn’t have been possible without the help of tyagi and jha.

To all my juniors Sumira, Talat, Yamal, Jewel, Rehana, Meenakshi, Uzma, Saima, Asha and Darakshanda, Gunjan, Karuna, Shadab, Mir, Khalid, Lata and to the rest whom I failed to mention, thanks for making my stay at hamdard a wonderful experience.

To my parents who put inside me all the right stuff (including values and freedom) at an age when your insatiable brain doesn’t care to discern its input. My humble obeisance to them. For my brothers (Qasim and Kazim), the thesis can’t see the light of the day without them. I owe special gratitude to all my relatives specially Zakir and Azra for continuous and unconditional support.

To everybody that has been a part of my life but I failed to mention, thank you very much. There won’t be enough space if I will mention you all.

Samar Fatima
