ACKNOWLEDGEMENTS

The road from personal curiosity to academic understanding can never be travelled alone. There are countless people over the last years that have helped me along the way. Some have been family members, some have been teachers, others have been friends and yet others have been strangers whose comments in an informal meeting might have made something open up in my mind.

Gratitude is owed to many individuals who have helped me in one way or another over the past three years, often without knowing they were doing so.

My deepest appreciation goes to my first promoter, Dr. P.JAYASHREE, for her confidence, advice, encouragement, commitment and unsparing support during the period of my study. She taught me how to be an independent scientist by letting me make my own choices at decisive points, along the way.

I deeply acknowledge the excellent advisory support of Dr. H.R.Matinfar, my adviser, in many difficult situations, and am grateful for the many inspiring scientific discussions we shared. It was easy for me to communicate with him because of his friendly and sincere attitude. Special thanks go to Dr. Chandrashekar, who substantially helped me in organizing.

I would like to thank the whole faculty member in the Geography department for their support. My sincere thanks go to Dr. Nagraj, chairman and Dr. Shivalingapa BOS Dr. S.S.Sannashiddannanavar Dr.Arundas and Prof. Krishna Murthy for their wonderful support and encouragement; they were always a pleasure to see their cheerful face.

In addition, I want to thank Prof. A. Sharifi, Dr.Banaian, and Prof. S.K.Alavipanah for giving me a conceptual understanding of satellite remote sensing technology and for his well-structured talks in which I grasped many complex concepts.

I give many thanks to the managements and their colleagues of library of Mysore University, Delhi University, Hyderabad University, Aligarah University and Bangalore University for help me.
I would like to express my thanks to the National Geographical of Iran for preparation of Satellite Image and I am also interested in expressing my gratitude to Space Organization of Iran.

Many helped at geography department and support me it came to there. I cannot possibly mention everybody, but a few people must be singled out: Mr. Mohebbi Masoudi, Jafari, Balagee, Bafghizadeh, Ahmadi, Torkashavand, Abdolmanafi, Moeinizadeh, Noori, Karami, Karbalaei, Najafdari, Mostafavi, Akhiar, Mehrjoe, Kasae, Zandi Razieh & Javad, Gharaei, Mirbargkar, Mir Vahab Baghery, Ghaemi, Komaki, Tabatabaei and Mrs. Darvishzadeh.

I extend my gratitude to my father and mother, my brother, and Leila my sister in law, who went through a lot while I was absent. They have given me tremendous support and deserve so much more than a simple’ thank you’.

Finally, to my son, Hossein, my sincere apologies for not being able to be the full-time daddy you deserve. I always did my best to fulfill your desires, wishes and needs.

Last but not least, to my wife, I say thank you for your presence, support and encouragement. You left your job to join me and support me here in the India. However, I realized that you had so much to do over the past three years that I even had to support you! I am sincerely grateful to you for your patience, appreciation, trust and most of all your love.

FARHAD ZAND
