ACKNOWLEDGEMENT

I express my profound gratitude to my teacher and guide Prof. Shivabasavaiah, Professor and Chairman, Department of Studies in Zoology, University of Mysore, under whose guidance the present work was undertaken. Without his kind co-operation, unstinted encouragement, constructive criticism and careful supervision, the completion of this thesis work would not have been possible. I shall always cherish the memories of his unique way of supporting me in the entire study-period.

I am thankful to the former Chairmen of Department of Studies in Zoology, University of Mysore, Prof. Prakash R. Naik, Prof. S.N.Hegde and Prof. S.R.Ramesh, for their constant encouragement and valuable help by providing research facilities in the department. I am grateful to all teachers in the Department of Zoology for their kind cooperation during my research.

I am thankful to the former Chairman, Board of studies in Zoology, University of Mysore, Prof. Sadanand M. Yamakanamaradi. I owe my special thanks to one and all the board members.

I am extremely obliged to Prof. H.B.Devaraj Sarkar, retired Professor of Zoology, University of Mysore, Mysore for his valuable suggestions and critical review of the manuscript.

I wish to thank Dr. S.Leelavathi (Reader), Department of Studies in Botany, University of Mysore, Mysore for helping me in identifying the plant.
