First of all I bow my head before the recognized, omnipresent, omniscient and omnipotent All Mighty, vital energy, which has been controlling the universe. His mercy cannot be reciprocated by human beings, only can be acknowledged. Once again I tender my flowers of feeling in the feet of All Mighty God. Further, I salute the field of SHIATS, Allahabad, for providing the base for research work.

Much of what I have learned over the years came as a result of being a student of science all of which, in its own special way, inspired me and subconsciously contributed a tremendous amount to the content of this research. A little bit of all the scientific teaching will be found here woven in and out of the pages – thanks to all my teachers!!

Word thankful is a piece of my deep gratitude towards my supervisor Prof. (Dr). A. B. Abidi, FISAB, FISAC, (Former Head and Research Co-ordinator) Department of Biochemistry & Biochemical Engineering, SHIATS, Allahabad (Former Director Administration & Monitoring, N. D. University, Kumarganj, Faizabad) for his constant support, excellent guidance and positive outlook in science as well as in life. My dream has been converted in to reality because of his blessings and fatherly behaviour. He has provided me independence, encouragement and motivation throughout the course of this work. His time, patience and scientific discussion were assets to my research and his contribution goes beyond any measurable value.

Indeed, the words at my command are not adequate either in from sprit to express my deep sense of gratitude to Prof. (Dr.) S. I. Rizvi, Head, Department of Biochemistry, University of Allahabad for kindly allowing me to carryout this research in their department and provide appreciable direction, motive, precious advice and his interest which is responsible for the accomplishment of this target.

It is my proud privilege to express my sincere thanks to Prof. (Dr.) A. K. Gupta (Co-supervisor), Head, Department of Forensic Science, Dr. Alok M. Lal, Associate Professor and Head, Department of Biochemistry & Biochemical Engineering and Dr. Suchit A. John, Associate Professor, Department of Biological Sciences the erudite members of my advisory committee for extending their valuable suggestion, persistent encouragement and liberal help time to time.

I owe my sincere gratitude to Dr. V. Prakash, Associate Professor, Dr. K. Lawrence, Associate Professor, Dr. (Mrs.) Sushma (Assistant Professor), Dr. (Mrs.) Y. Verma (Assistant Professor), Dr. S. K. Srivastava (Assistant Professor) Er. A. Bind (Assistant Professor) and Er. A. Sharan (Assistant Professor) Department of Biochemistry & Biochemical Engineering for their outstanding support and guidance.
Words are not enough to express my grateful appreciation for my father Shri. Vishnu Kumar Tiwari and mother Smt. Gayatri Tiwari but without their whole hearted support and encouragement, it was simply impossible for me to finish this dissertation. I would like great thanks to my loving brothers Rudra Kumar Tiwari and Atma Prakash Tiwari and all other family members for their endless support, patience, inspiration, affection and encouragement that have made it possible, which helped me to achieve where I am today.

I would like to give a special thanks to Dr. K. B. Pandey, Department of Biochemistry, University of Allahabad for his inspiration, moral support, and friendly nature. He helped me in many ways to complete my dissertation.

For being so much helpful I would like to thank to Mr. M. M. Mehdi, Mr. Prabhakar Singh, Ms. Nidhi Jaiswal and Mr. Sandeep Singh, Department of Biochemistry, University of Allahabad for their cordial help, innovative ideas and perfectual encouragement throughout the course of study.

I take this privilege with great pleasure to express profound and sincere sense of gratitude to Mr. Bilal A. Sheikh, Ms. Priya, Ms. Vijaya and Ms. Mahjabin for their help, support and encouragement throughout research and also thank to Mr. Umesh, Mr. Sandeep, Ms. Swati and Ms. Narayani for their moral and mental support during work.

I would like to thank my dearest friends Dr. Sunil Kr. Yadav, Mr. Satyendra Dwivedi, Mr. Amit Singh and Mr. Harsh D. Kar for their help, support and friendship throughout my tenure.

At last but not least I am extremely thankful to Mr. Hemant, Mr. Ramsagar, Mr. Sanjay and Mr. Dilshad who have helped me in completion of my work.

I offer my regards and gratitude to all those who supported me in any respect during the successful realization of this thesis, as well as express my apology to those whom I could not mention here by name.
