

Acknowledgement

I sincerely wish to express my deep debt of gratitude to all those who have made this moment possible and I do not find anyone more appropriate other than Prof. (Mrs.) Rajesh Dhankhar, to acknowledge first. It has been my great privilege to have Prof. Dhankhar as my supervisor during the course of this investigation. I record my gratitude to him for his invaluable guidance, constructive criticism and constant encouragement. Her personal attention and continued inspiration has helped me to bring this work to a logical conclusion. I would like to convey very special thanks to him for the space she provided me to be myself, for allowing me to work independently and her immense patience while correcting the thesis. Not only did she provide me the opportunity to learn the basics of science but also brought out the best in me through her critical appraisal and an eye for finer points.

I would also like to thank Prof. J. S. Laura for all the necessary support and providing the instrumentation facility of the department, during their respective tenures as 'Head of the Department'. Thanks are also due to other faculty member of the department for their timely help.

I would like to take the opportunity to thank Prof. R. P. Hooda, Former Vice-Chancellor, Maharshi Dayanand University for providing infrastructure and research facilities.

I am thankful to Dr. Bijender Singh & Dr. Krishna Kant Sharma, Department of Microbiology, Maharshi Dayanand University, for encouraging me and helping me in carrying out the research work, I really enjoyed their company.

I would also like to thank Mr. Jasbir Hooda and Dr. Vinay Malik for his help and valuable suggestions during this entire period and also for sharing tea with me every time..

I would like to thank my lab-mates for their continuous support and pleasant work environment.

My sincere thanks goes to Dr. Joginder Singh Dahiya, Jat College, Rohtak for his regular support and discussion on bioethanol research work, He was always with me during every moment of difficulties. He was the main guiding force behind this work to bring it to the logical conclusion. I would have missed many important aspects of life if I hadn't met him. His clear concepts and logics guided me to come out of difficult situations.

In the end, I would like to acknowledge the unwavering love and patient support of my parents who believed in my capabilities and were always there by my side. My entire family, my parents, my wife and my children have been the pillars and strength and it is their love and care that has helped me to achieve my goal. Thank you all for your unconditional love and concern.

Financial assistance by University Grants Commission (UGC), New Delhi in the form of Teacher fellowship during the tenure of this investigation is gratefully acknowledged.

Finally, I close this in the name of almighty God, with whose name it was commenced.

Anil Kumar
