ACKNOWLEDGEMENT

There should be an aim to achieve any goal in life, the key is to use our strength and hide our weakness. My father thought me very early to believe I could achieve any accomplished I wanted do. There are no victories at bargain prices. The first was to walk without braces. Problem can become opportunities when the right people come together. I found out that right people in my critical situations. This is the correct time to say my thanks for the timely help of those right people who by and large showed me the proper direction and guidance to achieve my aim. So this is not just the formal thanking but the deep gratitude with comes from my heart.

First and foremost I would like to express my deepest appreciation and profound gratitude to my supervisor Dr. G.P. Agrawal, Professor in Pharmaceutics and Head department of Pharmaceutical sciences Sagar for his illuminating guidance and supervision in this research work. This project would have been possible of his invaluable advice, benevolent guidance, constructive ideas, timely intervention and permission granted me to utilize the facilities in the department to carry out this project work.

I wish to acknowledge my indebtedness to all faculty members of Department of Pharmaceutical Sciences Sagar i.e. Prof. N. K. Jain sir, Prof. Vinod Dixit sir, Prof. S.P. Vyasa sir, Prof. M.D. Khraya sir, Prof. D. V. Kohali sir, Prof. Abhay Singhvi sir, Prof. R.K. Agrawal sir, Prof. Sanjay Jain sir, Dr. Asmita Gajbeyal medam, Dr. Vandana Soni medam, Miss Lopa Benerjee medam and Dr. Sushil Kashaw sir for their valuable help and suggestion to carry out my research work.

It is immense pleasure that I express a deep valuation and heartiest feeling for Prof. (Dr.) Gopal Nath, Dept. of Microbiology, Institute of Medical Sciences, BHU, Varanasi (U.P.) for providing the facilities to performing antibacterial activity on H. pylori biopsy strain (SKP56), for my developed formulations.

I convey my thanks to Dr. D. K. Schrof, Professor of Zoology, Dr. H.S. Gour Central University Sagar and Dr. Papiya Bigonia medam for lengthy discussion and co-operation for in vivo studies during research work.
It is immense pleasure that I express to gratefulness to Dr. Sunil Kumar Jain, Director, Adina Institute of Pharmaceutical Sciences, Sagar for his encouragement and permission to me to utilize the facilities in his institution to carry out this project work.

I wish to acknowledge my indebtedness to Dr. Rajesh Pathania and Dr. T.C. Nag, All India Institute of Medical Sciences (AIIMS), New Delhi for providing the facilities of scanning electron microscopy (SEM) and transmission electron microscopy (TEM) of my developed formulations.

I would like to thank Dr. Sanyoj Kumar Jain, National Institute of Pharmaceutical Science (NIPER), Mohali, Punjab for their suggestion and providing Confocal Laser Scanning Microscopy (CLSM) facilities of my developed formulations.

I am also grateful to Prof. (Dr.) Sanjay Jain, Dept. of Pharm. Sciences, Dr. H.S. Gour Central University Sagar for providing fluorescence microscopy facilities during my project work.

I am thankful to Glaxo Smith Kline, Bombay, India and Cadila Pharmaceuticals, Ahmedabad, India for providing gift sample of Ranitidine Bismuth Citrate (RBC) and Amoxicillin Trihydrate (AMOX).

I acknowledge to the librarian and staff of Jawaharlal Nehru Library, Sagar, National Medical Library (NML) New Delhi; Central Drug Research Institute (CDRI), Lucknow and National immunological Institute (NII), New Delhi for providing literature search facilities which were necessary to establish many studies of this research work.

I am highly indebted of my all Research scholars colleges i.e. Shailendra Patil sir, Abhinav Agrawal, Anil Kumar Kharaya, Brajesh Tiwari, Abhilasha Thakur, Vikash Jain, Raksha Ghanghoria, Neelesh Mehra, Vijay Mishra, Prashant Keshrwanin, Kirit Jain, Ashish Jain, Arivend Gulregarth, Satish Shipti, Roopal Dubey, Abhieke Jain, Ankur Vaidhaya, Ravindra Chourasia, Vikash Sharma, Vijay Karwahra, Jai Ram Patel Sir, Pushpendra Jain, Suresh Janadar, Nitin Nema, Lokesh Omre Sir, Yougesh Punekear, Navneet Khurana, Lalwani sir, Devendra Soni, Satish Sahu, Rishi Polivat, Shivani Roy, Devyanie Dubey, Mahu Gupta, and Neelesh Jain without his help and encouragement it was impossible for me to complete my research work successfully.
I shall never forget the moment of pleasure and fun shared with my younger brother Dr. Prateek Kumar Jain and his wife Harsita Jain. I had been learning many new lesions from him in my life.

As these juncture memories of my M. Pharma batch mates reel in my mind although hardly few were around while I embarked on this journey, I thank to Dr. Gourabh Saraogi, Dr. Narendra Lariya, Dr. Piyush Khare and Dr. Avijeet Jain.

I am also thankful Sharad Soni bhaiya for his time to time cooperation and support for photography of my developed formulations.

I owe my respect to all the non-teaching staff of Dept. Pharmaceutical sciences Sagar specially Niranjan Pathak, Pyusha mem, Rana Ji, Manoj bhaiya, Raj kumar bhaiya and Mahesh bhaiya for their kind support.

My sincere thanks to Patel sir conducting Network Computer to bring out this PhD. thesis successfully and excellent timely completion of the work with all interest.

Finally I am thankful to one and all that were involved directly or indirectly in this venture of mine.

At the end I bow at the feet of god for making everything worthwhile.

(ASHISH KUMAR JAIN)
