ACKNOWLEDGEMENT

First and foremost the author would like to thank the guide Dr. K. A. Narayanankutty, Professor, Department of Electronics and Communication Engineering, Amrita School of Engineering, Coimbatore for his support and encouragements. It is his colossal support that has brought such a shape and order into the thesis.

The author would like to thank the doctoral committee members Dr. V. P. Mohandas, Chairperson (Department of Electronics and Communication Engineering) and Dr. T. N. Padmanabhan Nambiar, Chairperson (Department of Electrical and Electronics Engineering) for their valuable suggestions and constant support throughout this research work.

The author acknowledges Dr. N. S. Pandian, present Chairman, and Committee for Post Graduate Programme for his timely suggestions and directions.

The author takes this opportunity to thank Brahmachari Abhayamrita Chaithanya, Pro chancellor for his constant encouragement and support. The author’s sincere and special thanks to Dr. M. P. Chandrasekharan, Dean (Engineering), Dr. P. Venkat Rangan, Vice Chancellor and Dr. S. Krishnamoorthy, Registrar for their support.

The author would like to thank Dr. C. Shunmuga Velayutham, Assistant Professor (SG), Department of Computer Science and Engineering for spending his valuable time for reading the manuscripts and providing valuable suggestions.

The author is greatly indebted to the family members for their moral support and prayers.
