ACKNOWLEDGEMENT

First of all, I give my praise and thanks to Christ Jesus who has bestowed upon me wisdom and perseverance throughout my life.

My gratitude is due to Dr. P. Yogesh, Associate Professor, Department of Information Science and Technology, Anna University, for his continuous support to my research. His patience, motivation, enthusiasm, and immense knowledge guided and helped me throughout the course of this research and the writing of the thesis. The good advice, support and friendship of my second supervisor, Dr. R. S. Bhuvaneswaran, Associate Professor, RCC, Anna University, has been invaluable, on both the academic and personal levels for which I am extremely grateful.

I thank Dr. A. Kannan, Professor and Head, Department of Information Science and Technology, who as a good friend, was always willing to help and give good suggestions. Without his involvement, this research work would not be have been finished within the specified time. I am glad for this.

I thank Dr. H. Kannah Nehemiah, Associate Professor, RCC, Anna University, for helping me to begin my research work. With profound reference, my thanks to Dr. G. Aghila, Professor, Department of Computer Science and Engineering, Pondicherry University, Pondicherry, and Dr. P. Anandhakumar, Professor, Department of Information Technology, Anna University, for providing valuable ideas and reasoning to do the research work.

Finally, I thank my mother Mrs. Vasanthy Rayan and father Mr. G. S. Rayan for their continuous support and blessings. I thank my husband Mr. Z. Benet and my children Celeste and Dominic Assisi, for their constant support, patience and prayers. I have been encouraged and helped by a great number of friends, colleagues and supporters throughout this research. I thank all of them.

AROCKIA XAVIER ANNIE R
