ACKNOWLEDGEMENT

First and foremost, I wish to express my heartfelt gratitude and sincere thanks to my thesis advisor, Dr. S. S. Bhagawan for his guidance, support and encouragement. It is his experience and wisdom which enabled me to enrich myself both professionally and personally.

The kind support and encouragement offered by Prof. R. Subba Rao, Chairperson, Department of Chemical Engineering and Materials Science have been invaluable.

I wish to acknowledge Br. Abhayamrita Chaitanya, Pro Chancellor, Dr. P. Venkat Rangan, Vice-Chancellor, Dr. S. Krishnamoorthy, Registrar, Dr. M. P. Chandrasekharan, Dean – Engineering and Dr. N.S. Pandian, Dean, Post Graduate Programmes for giving me the opportunity to pursue my Ph.D. research work at Amrita Vishwa Vishwavidyapeetham.

The helpful discussions and insightful suggestions from my doctoral committee Convener, Dr. Sriram Devanathan, have gone a long way towards the fruition of this work. My doctoral committee members, Dr. K. Kannan, Dr. C. R. Ramakrishnan and Dr. C. Jayasree have all been instrumental in the realization of this research work. I wish to express my sense of gratitude to all of them.

My colleagues at Amrita School of Engineering had been very helpful and encouraging throughout. The suggestions and encouragement given by Dr. K. Jayanarayanan were invaluable during the execution of this work. My friends Dr. P. G. Saleeshya and Dr. K. Lakshmi have been sources of much needed strength and fortitude.

May I also express my appreciation to research scholars Ms. Lisha P Stanly, Ms. Dhanya Vishwanathan, Ms. Sreeja M. R. and the lab staff Mr. C. P. Shyamlal, Mr. S. Vijayakumar, Mr. C. Ramamurthy and Mr. Kaliraj for their assistance in sample preparation and analysis.

I thank Dr. Thomas Kurian (Head, Department of Polymer Science and Rubber Technology, Cochin University of Science and Technology), Dr. K.T. Thomas (Joint Director (Rubber Technology), Rubber Research Institute of India, Kottayam), Dr. Abi Santhosh Aprem (Hindustan Latex Ltd), Mr. P. P. Singh (High Energy Material Research
Lab, Pune), Dr. Siddhartha Das (IIT, Kharagpur) and Dr. Shibu M Eappen (STIC, Cochin University of Science & Technology, Cochin) for permitting me to use their research facilities.

I wish to acknowledge the financial assistance from Indian Space Research Organization (ISRO) for providing funds for carrying out the research work.

This thesis could not have been completed without the endless love, support and sacrifice of my family. The life and principles of my parents, Dr. K Balachandran and Smt. Ramani, have been my guiding light throughout. My husband, Shri R. Sasikumar, provided me all the support, encouragement and help to carry out this work successfully. My loving son, Akshay, was very understanding and accommodating in his own way. I thank them all.

Meera Balachandran
