ACKNOWLEDGEMENT

I would like to offer my heartfelt gratitude to my guide Prof. Kh. Gambhini Devi, Head of Department, Adult, Continuing Education and Extension, Manipur University for her invaluable suggestion and constant guidance. The completion of this thesis would not have been a possibility had it not been for her enduring support and encouragement throughout my research tenure.

I would like to extent my sincere thanks to Dr. L. Leiren Singh, Head, Department of Education, Manipur University for providing me support in my study.

I would also like to express my gratefulness to the NGOs namely Social Awareness Service Organisation (SASO), Francois-Xavier Bagnoud (FXB) Manipur, Center for Social Development (CSD) and also to various Women’s Self Help Group of different locality of Imphal West in giving Co-operation and providing necessary help in the study.
Further I would like to thank the staff of Directorate of Education (S) Directorate of Economics and statistics, government of Manipur, Director of Census operation, Imphal, Manipur for providing me with their Departmental publications of related data and documents for the study.

I owe my gratitude to the staff, Department of Education and Department of Adult and Continuing Education and Extension, Manipur University for all the necessary help rendered to me during the study.

I am also thankful to all the staff of Manipur University Library, Jamia Millia Islamia University Library for their help in providing me with the relevant materials of my study.

My humble gratitude goes to my father Late L. Bodharanjan Singh and my grandfather Late L. Jokeswar Singh, the guiding forces in my carrier and whose aspirations have been sources of inspiration to complete the study. I am also grateful to my mother, brothers and sisters for their unstinted support and encouragement in completing the study.
I would also express my gratefulness to my father-in-law and mother-in-law who have always given me the support and necessary help to complete the study. Special thanks go to my husband and my son whose encouragement and support has been a pillar of strength for me throughout the study.

I would also give appreciation to my friends and colleagues who have given me valuable suggestions and comments in the study.

Last but not the least, I would like to show my indebtedness to the Children, Parents and Teachers who were the respondents of my study without whose patient co-operation and assistance the study would not have been possible. The completion of this study has been a fruit of their meaningful and supportive participation.
