ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my teacher Dr. R.S. Yadava, Assistant Professor, Department of Earth Sciences, Manipur University for his valuable guidance, suggestions and constant encouragements throughout the research work. The submission of such a voluminous and informative thesis at the micro-level for a district of Manipur could be possible only through his kind appreciation and pains-taking helps during the research period.

I sincerely acknowledge the helps rendered by Prof. R.P. Singh who gave me an opportunity to participate in ICSSR sponsored training course on Research Methodology in Geography(1988) and Area Planning(1990). These courses were very useful in revealing various dimensions of Integrated Rural Area Development and Planning. I express my gratefulness to Dr. Rajesh Anand, Associate Professor and Head, Department of Earth Sciences for his kind help in doing research.

I am very thankful to Shri S. Ibotombi Singh for providing a concised account of geology of the area. Dr. R.A.S. Kushwaha gave his valuable suggestions related to geological aspects of the valley. Dr. N. Deva Singh needs special mention for his kind help in many ways at crucial moments.

I gratefully accord my indebtedness to Shri S. Kunjabihari Singh, IAS, Deputy Commissioner of Thoubal District and Shri N. Biren Singh, A.R.O., District Planning Officer, Thoubal for their prompt and effective response in providing valuable information and printed as well as up-to-date documents and records.
I am very much obliged to various Government Departments of Thoubal District, officers as well as subordinates such as Block Development Officer, Sub-Deputy Commissioners, District Rural Development Agency, Agriculture, Horticulture, Public Works Department, Electricity, Industry, Inspector of Schools, Co-Operative Societies, Adult Education, Social Welfare, Population Census etc. for their kind and sincere co-operation in data collection related to this study.

I am very thankful to my colleagues in Thambal Marik College, Oinam namely, Shri Kunjabi Singh, Shri L. Ibomcha Sharma and Shri Yaima Singh, who shared the burden of my teaching at the crucial stage of my research work. I express my sincere thanks to Mr. Kh. Pradip Singh, Research Scholar of the Department of Earth Sciences for his cartographic assistance in final drawing the maps. I am thankful to Mr. H. Herachandra Singh for taking pain in nice typing of the final manuscript. I shall be failing in my duty while not mentioning the helps rendered by Miss Nungsitombi Devi and Mr. L. Tunanbi Singh for rough typing of the thesis. I would not forget the physical, monitory and moral support provided by my brother, Th. Samungou Singh without which thesis may have been a very difficult task.

Phajabi Devi
