ACKNOWLEDGEMENTS

With extreme reverence I wish to express my deep sense of gratitude to Professor J.D. Ranade, M.Sc., Ph.D. (Lond.), University of Saugar for suggesting the problem as well as for constantly guiding my work and his sympathetic understanding and affectionate encouragement throughout the course of the work.

I am very grateful to Dr S. Sivaraman for giving me scholarly advice as well as the opportunity for valuable discussions throughout the period of my stay here. I am highly indebted to Dr. R.K. Shrivastava, Professor and Head, Dept. of Physics for extending all the facilities of the Department.

My grateful thanks are also due to Dr P.S. Diwan, Shri B.N. Tiwari of the Department and to Dr A. Rastogi of Maharaja College, Chhatarpur for their assistance in experimental work.

I am very thankful to my colleague Sri R.S. Soni, Teacher Fellow for assisting me in experimental work and to Mrs. Manjula Khare, Dr Y. Raman, Dr M.S. Kushwaha and Dr S.S. Yadav for their friendly cooperation on various occasions.

My grateful thanks are also due to the Director of the IIT, Kharagpur, the IIT, Delhi, the NPL, Delhi and the NSL, Delhi for permitting me to consult their Libraries.

I am highly indebted to Dr T.S. Murty, my Teacher, who has been my guardian during these years.

I am thankful to the UGC for the award of a Teacher Fellowship and to the Govt. of M.P. for granting leave to enable me to complete the work.

I would like to conclude with a word of thanks to Sri G.S. Shukla for his careful preparation of the typescript.

( C. Pillai )
