Acknowledgement

1. It is a great opportunity to express deep sense of gratitude to my research supervisors Prof. Parimalendu Haldar and Dr. Dipak Kr. Mandal for introducing me to this magnificent field of applied research that actually inter-mingled the field of entomology and fish biology. I am deeply indebted to them for their constant encouragement, constructive criticism and valuable suggestions received throughout the period of my research work. It is needless to say without their illuminating guidance, my shortcomings would have been much more obvious.

2. I am grateful to the former HOD of our department, Prof. P. Nath and the present HOD Prof. S.K. Maitra, for providing laboratory, library and other facilities.

3. I am also indebted to the University Grants Commission (UGC), Govt. of India, for providing fellowship.

4. Grateful acknowledgements are also due to Dr. Sudipta Maitra of the Dept. of Zoology, Visva Bharati for his suggestions that helped me to improve my experimental design in the earlier days.

5. Dr. Angshuman Sarkar, Dept. of Statistics, Visva Bharati is especially acknowledged for extending his helping hand in solving different statistical problems.

6. Prof. G. K. Morris of the University of Toronto and Prof. C.C.D. Guzman of University of the Philippines Los Baños are acknowledged for their precious suggestions to enrich my research work.
7. Very special thanks are due to Prof. J.M.P. Moreno of the Autonomous University of Mexico and Prof. Gregory A. Sword, Texas A & M University for their constant suggestions through personal correspondence throughout the period of my research work.

8. I am extremely happy to have Prof. Samiran Chakraborty, Dept. of Zoology, Kalyani University, as the external expert of my pre PhD seminar. His valuable comments helped me to further enrich my research work.

9. I also gladly appreciate and acknowledge the kind cooperation and instant support from all my fellow research scholars of our department.

10. I like to express my heartfelt thanks to my lab mates Hena di, Hirojda, Chandrik da, Debasree di, Kaushik and Shubhashish for their continuous support and encouragement.

11. Special thanks are extended to Mousumi di and Ranita, without whom it would have been impossible to accomplish my experimental works successfully.

12. Papu and Kamaksha are specially acknowledged for their constant assistance in field collection and maintenance of the insectariums.

13. Dr. Phani Bhushan Ghosh, Institute of Environmental Studies and Wetland Management, Kolkata, Prof. S. Laskar, Dept of Chemistry, Burdwan University, Dr. R. Majhi, IICB, Kolkata, Prof. P.C. Sen, Division of molecular medicine, Bose Institute, Kolkata and Mr. A. Biswas, Kaliachak pathological clinic are acknowledged for extending their kind helping hand for crude protein, fatty acid, amino acid, minerals and vitamin analysis respectively.

14. I acknowledge all the non teaching staffs of this department for their silent assistance.
15. Finally I use this occasion to express gratefulness to my parents, and my elder brother for their inspiration and encouragement.

16. Special acknowledgement is very much due to all of my teachers of the Dept. of Zoology, Visva Bharati for their constant encouragement and suggestions through various class lectures during my college days, that influenced me to explore the magnificent field of animal biology, that ultimately lead me towards research.
