## CONTENTS

### CHAPTER 1: Introduction
- 1.1. An Introduction to Fuzzy Set theory
- 1.2. Motivation
- 1.3. Contribution
- 1.4. Thesis Organization
- 1.5. Preliminaries

### CHAPTER 2: Review of Literature

### CHAPTER 3: Fuzzy Superfluous Submodules
- 3.1. Preliminaries on Superfluous Submodule
- 3.2. Fuzzy Superfluous Submodule
- 3.3. FSSM, Fuzzy Radical and Fuzzy Indecomposable Submodule

### CHAPTER 4: Divisible and Pure Fuzzy Submodules
- 4.1. Divisible Submodule and Properties of Divisible Submodule
- 4.2. Divisible Submodule
- 4.3. Pure Submodule and pure fuzzy submodule
- 4.4. Relation between divisible and pure FSMs of a module M

### CHAPTER 5: Intuitionistic Fuzzy Ideals with Thresholds (α, β) of Rings.
- 5.1. Preliminaries on intuitionistic fuzzy ideals
- 5.2. Intuitionistic fuzzy ideals with thresholds (α, β)

### CHAPTER 6: (ε, ε∩q)-Fuzzy Ideals of BG-Algebra
- 6.1. Preliminaries BG-Algebra
6.2. $(\varepsilon, \varepsilon \vee q)$-fuzzy ideals of BG-algebra 66
6.3. Homomorphism of BG-Algebra and fuzzy ideals 71

CHAPTER 7: $(\varepsilon, \varepsilon \vee q)$- Fuzzy Ideals of BE-Algebra 73

7.1. Preliminaries on BE-Algebra 74
7.2. $(\varepsilon, \varepsilon \vee q)$- fuzzy ideal of a BE-Algebra 76
7.3. Homomorphism of a BE- Algebra 82
