Acknowledgement

As the research done over last few years brought good results, it is time to acknowledge those who helped me throughout this research work.

I express my deep sense of indebtedness to my guide Dr. M. A. Peer for his close supervision and constant guidance all throughout the duration of this work.

I would like to express my gratitude towards my co-guide Dr. Pabitra Pal Choudhury, whose pragmatic and logical approach towards a problem induced research abilities in me. His quality of utmost attention and unflattering enthusiasm was a constant driving force behind this research work. I consider myself fortunate to have been associated with him. I owe my debts to him.

I am thankful to all my friends and wellwishers for their constant encouragement throughout my life. I am very much thankful to all the teaching, non-teaching and technical staff of my department for their constant encouragement and help throughout this research period.

I am thankful to Prof. S. B. Rao, Director, Indian Statistical Institute and Prof. K. S. Vijayan, Head, CSU, Indian Statistical Institute, Calcutta, for allowing me to carry on the research work in the institute, several times during my period of research. I am also thankful to Dr. B. K. Roy and Dr. P. Bharati for making my stay comfortable, as and when I visited I.S.I. I must thank Ravi, Kajal, Palash, Rajeev, Subashis, Papri, Arup and all my friends in I.S.I., who have helped me directly or indirectly.

I am thankful to Mr. Amiya Das, Mr Prasanta K. Sen, Bikas R. Biswas and other technical staff members of the Computer Science Unit of I.S.I. for their kind help and assistance.

I am sure I have missed the names of many others whose direct or indirect assistance helped me in completing the work. I am thankful to all of them.

My heartfelt thanks are due to my parents, for their all time love, encouragement, help and guidance. I am thankful to my younger brothers and sister for their love and encouragement.

I must thank my wife Rifat for understanding me and "my CA" all throughout this research work. The patience shown by Basarat and Barik is really appreciable. I LOVE you kids.
