ACKNOWLEDGEMENT

This journey would not have been as interesting without the fascinating people I met along the way. I would first and foremost like to thank my genius guide, Prof. C. D. Lokhande for the opportunity to carry out this research work. I am indeed fortunate to have him as my postgraduate teacher and project guide, two years ago and then the privilege of his insightful guidance for this research work. The trust, support and ‘the freedom to create’ that he has provided throughout the work is very much appreciated. It is often said that in life, you will come across very few people that will take a chance on you and give you an opportunity to change your direction in life. Prof. C. D. Lokhande has taken such a chance, and I thank him for this. He is not only a helpful advisor, but like a family member.

My sincere appreciation to Dr. C. H. Bhosale, Professor and Head, Department of Physics, Shivaji University, Kolhapur for their encouragement for making me available the laboratory facility.

I am thankful to Prof. N. J. Pawar (Vice-Chancellor) and Prof. M. M. Salunkhe (Ex. Vice-Chancellor), teaching and non-teaching staff of the Physics Department and all the members of C.F.C. and U.S.I.C., Shivaji University, Kolhapur for the co-operation during the research work.

A special thank you goes out to Dr. V. J. Fulari for the many brainstorming sessions as well as the leisurely chats we had. I wish to also thank Dr. K. Y. Rajpure, Dr. Y. D. Kolekar, Dr. R. S. Vhatkar and Dr. S. D. Lotake for his many insightful recommendations and his continuous support throughout my research.

My sincere appreciation for the tremendous support provided by all my seniors, Dr. B. R. Sankapal, Dr. H. M. Pathan, Dr. R. B. Kale, Dr. S. D. Sartale, Dr. T. P. Gujar, Dr. (Mrs.) V. R. Shinde, Dr. (Mrs) S. S. Joshi, Dr. S. M. Pawar, Dr. S. G. Kandalkar, Dr. A. M. More, Dr. J. L. Gunjakar, Dr. V. D. Patake, Dr. R. R. Salunkhe Dr. D. S. Dhawale, Mr. U. M. Patil and Mr. K. V. Gurav, for their help and encouragement during my research work.
I am grateful to my colleagues, Mr. S. V. Patil, Mr. N. M. Shinde, Mr. S. B. Kulkarni, Mr. P. R. Deshmukh, Mr. V. S. Jamadade, Miss. S. N. Pusawale and all research scholars of the Physics Department for their constant encouragement during my research work. I also like to extend my thanks to all my friends Prakash, Onkar, Malhari, Aviraj, Uday, Vinod, Digamber, Deepak, Ganesh, Abhijeet, Vivek, Suhas, Ashish, Piyu, Ashu, shubi, Archana, Sunetra, Anuradha, Alka, Indrayani, Poonam, Snehal and all my juniors who helped me with all possible ways during my work.

Special thank are reserved to My Jitu kaka, Appa and Bha (Dear grandpa), for the constant encouragement and moral support which made my path easier to tread. The thanks are reserved to the University Grants Commission, New Delhi for awarding the project fellow during the course of my work.

I wish to express my deep sense of appreciation towards Mrs. Lokhande Madam for her homely behavior at every moment of my Ph. D. study. She was always there to help and encourage me so that I could resume my confidence in spite of frustrations and continue to work.

My acknowledgement will be incomplete if I don’t express my appreciation towards my project student Priyanka, Aarati, Megha, Pradnya and Seema for their constant source of inspiration, encouragement and support to carry out this research work.

My heartfelt appreciation goes out to my late father Prakash, my mother Ujwala, my kaki sangita, my little kaki swati (may), my lovely sister Reshma (Chingu), for their constant support and encouragement rendered and their love and affection towards me to sail through the difficulties to bring me at this position. A special thanks to my little cousins Janu, Jagruti (dumbo) and Tanu for their love.

Last but not the least; I dedicate this work to my beloved guide, my parents and jitu kaka.
