CONTENTS

ABSTRACT

1. INTRODUCTION 1-30

2. MATERIALS AND METHODS 31-47

3. RESULTS
   3.1 Screening for pyrazine-2-carboxylate metabolizing bacteria 48-52
   3.2 Characterization of isolate C45 based on
       polyphasic taxonomic approach : 53-61
   3.3 Catabolism of pyrazine-2-carboxylate by Stenotrophomonas sp. HCU1 62-75
   3.4 Isolation and characterization of metabolites of pyrazine-2-carboxylate metabolism 76-87
   3.5 Mining for the enzymes involved in pyrazine-2-carboxylate reduction 88-107

4. DISCUSSION 108-119

5. CONCLUSIONS 120

6. REFERENCES 121-136
