ACKNOWLEDGEMENTS

It is indeed a matter of great pleasure to have an opportunity to give vent to my feeling of gratitude to the people without whose help this work would not have crystallized.

I would like to take this opportunity first, to pay my sincere admiration to my research guide, Prof. A. Venkateswara Rao, Head of the Physics Department, whose motivation, inspiration, encouragement and persistent guidance have lead me to bring my dream to reality. During my Ph.D. course, he gave the good and shining shape to my carrier not only in research field but also in thinking and attitude towards life, in general. I must also mention that he is a very good teacher in Physics and a wonderful research guide, which is often quite rare.

I am thankful to Prof. N. J. Pawar (Vice-Chancellor), Shivaji University, Kolhapur, who has been very helpful in extending the infrastructural department facilities to me.

I am especially thankful to Dr. (Mrs.) A. Parvathy Rao for her valuable help, suggestions and advice in carrying out my research work during the course. I thanks to Dr. N. D. Hegde, Dr. R. R. Kalesh, Dr. Poonam Shewale, Miss Uzma Bangi, Miss Sunetra Dhere, Mr. Annaso Gurav, Mr. Vinayak Ganbavle, Mr. Mahendra Kavle, Mr. Satish Mahadik, Mrs. Mane and Mr. Dinesh Mahadik for their kind help and fruitful discussions to peak up the speed in the research work. I am also thankful to Swati, Swapnali, Sarika, Jagannath, Bebi, Sachin and all the other, former and present, M.Sc. students of Air-Glass Laboratory who have contributed to the successful completion of this work one way or the other. I am thankful to all the other research students in the department for the time to time help rendered by them.

I would like to extend my appreciation and thanks to Prof. C. D. Lokhande, Dr. S. S. Kolekar and Dr. Y. D. Kolekar for giving moral support and valuable discussion. I am indebted to Prof. C. H. Bhosale, Dr. V. J. Fulari, Dr. K. Y. Rajpure
and Dr. R. S. Vhatkar for fruitful discussions and valuable suggestions during the course of the work.

Special thanks are reserved to my childhood friends Gamya, Pagya and Bantya for the constant encouragement and moral support which made my path easy-going. I also like to extend my thanks to all my friends Datta, Rahul, Pratibha, Vilas, Rabiya, Parvez, Sarika, Nilesh, Dipak, Prashant, Sachin, Rajendra, Suhas, Chaya, Sarita, Pravina, Jasmin, Dipti and all my juniors who helped me with all possible ways during my work.

The thanks are reserved to the University Grant Commission (UGC) and Council of Scientific and Industrial Research (CSIR), Govt. of India, New Delhi for awarding the research fellowship during the course of my work.

I am also thankful to the teaching and non-teaching staff of the Physics Department and all the members of the university office. I am grateful to all the members of staff of the USIC and CFC, Shivaji University. I thank Prof. Hiroshi Hirashima and Hiroaki Imai, Keio University, Japan, Prof. Charles Kappenstein, Poitiers University, France, Dr. M. C. Rath, BARC, Mumbai for their help in characterization of the samples and the related scientific discussions.

On this occasion I must remember my Father Late. Subhash to whom I love a lot, Mother Laxmi, Uncle Shivappa, Aunty Sharada, Sisters Ranju, Jaya, Anju, Brothers Raju, Prashant, Pintu and my English school teacher Bhagwan Ramdasi sir, for their constant support and encouragement rendered and their love and affection towards me to sail through the difficulties to bring me at this position.

Finally, I take this opportunity to express my heartfelt and profound gratitude to my beloved wife, Aswini, without whose co-operation this thesis would not have seen the light of day. Of course, she deserves lots of appreciation who never complained about my absence, even in the toughest of times, during the course of this work.
