ACKNOWLEDGEMENT

First and foremost I offer my sincerest gratitude to my Advisor, Prof.(Dr.) A.K. Gupta, who has supported me throughout my PhD with his patience, motivation, enthusiasm and who has provided me with a healthier working environment whilst allowing me the room to work in my own way. He always listened to my ideas and gave his valuable suggestions. His guidance helped me during all the time of research and writing of this thesis. One simply could not wish for a better or friendlier mentor.

I found myself very small as words fail to acknowledge the tremendous sacrifices that my father, Shri R.C.Sharma and my mother, Smt. Sarla Sharma made to ensure that I had an excellent education. Their ‘Yes’ for my every need & demand, their unconditional love & support both
financially & emotionally, their belief in my capabilities, the patience and understanding shown by both of them throughout my life can never be compensated. For this and much more, I am forever in their debt. I’m blessed with the loveliest parents. It is to them I dedicate this thesis. Without you, I would not be the person I am today.

I would be fail in my life if I wouldn’t acknowledge the love, support and patience of my best friends, my lovable sister, Archana Sharma, my adorable brother, Ankur Sharma, and my respectable Jiju, Manish Vashistha. Their motivation and love enabled me to complete this work and never made me to feel that I’m far away from them. You are the pillars of my strength and without you I would never come up in my life.

I acknowledge the pride and joy of my life, my niece Aarohi Vashistha ‘Guddu’ for her innocent smile and for lightening me up whenever I saw her. I love you more than anything.

As for my husband Virendra Bhardwaj, I find it difficult to express utmost appreciation for his boundless love, unconditional support, for helping me to think rationally and for giving my career a priority in our lives.

I owe a lot to my parents in law, Dr.J.P.Bhardwaj and Smt. Vijay Bhardwaj for their strong love shield that always surrounds me & never lets any sadness enter inside and for their respect towards my studies. I’m thankful to my brother-in-law, Abhishek Bhardwaj for always cheering me up, for my sister-in-law, Nidhi Bhardwaj and brother-in-law Abhitosh for being sources of laughter, happiness and for their good wishes.

Above all I would like to thank the almighty God, who stood with me at every stage of life and bestowed his blessing upon me, who keeps me away from bad deeds; it is he who made anything and everything possible.

At the end, it is a pleasant task to express my unfettered reverence to one and all who have played a vital role in the fulfillment of this work and made it an unforgettable experience for me.
