List of Figures........................................................................................................ X
List of Tables.......................................................................................................... XIII

1 Introduction to Handwritten Character Recognition ...................................... 1
  1.1 Introduction.................................................................................................. 1
  1.2 Character Recognition............................................................................... 4
    1.2.1 Machine Printed Character Recognition.......................................... 4
      1.2.1.1 Single Font ................................................................................ 5
      1.2.1.2 Multiple Font .......................................................................... 6
    1.2.2 Handwritten Character Recognition System.................................. 6
      1.2.2.1 Online Handwritten Character Recognition System............... 6
        1.2.2.1.1 Writer Dependent ......................................................... 7
        1.2.2.1.2 Writer Independent ..................................................... 8
      1.2.2.2 Offline Handwritten Character Recognition System............ 8
        1.2.2.2.1 Isolated Character recognition.................................... 8
        1.2.2.2.2 Document Recognition............................................. 9
          1.2.2.2.2.1 Single script .................................................... 9
          1.2.2.2.2.2 Multi script......................................................... 9
  1.3 Statement of the problem.......................................................................... 9
  1.4 Need of the proposed research.............................................................. 10
  1.5 Objective of the study.......................................................................... 10
  1.6 Advantage of the study....................................................................... 11
  1.7 Scope of the study.............................................................................. 12
  1.8 Limitations of the study................................................................. 12
  1.9 Organization of the Thesis................................................................. 13
    References.............................................................................................. 15

2 Literature Review .................................................................................. 17
  2.1 Introduction. .......................................................................................... 17
  2.2 Previous work in the field of Offline Handwritten Character Recognition. 18
    References.............................................................................................. 32
### 3 Study And Analysis Of Gujarati Characters for Structural Feature Extraction

5.6.3.1 Connected and disconnected components........... 109
5.6.3.2 Number of End Point................................. 110
5.6.3.3 Number of Loop / Close Region....................... 111
5.6.4 Classification using Decision Tree....................... 112
5.6.4.1 Decision Tree classifier for Gujarati consonants.... 113
5.6.4.2 Decision Tree classifier for Gujarati digits......... 114
5.7 Pseudo code used to build Handwritten Recognition Tool and Offline Handwritten Isolated Character Recognition Engine........ 115
5.8 Sample output........................................................................ 139
References..................................................................................... 150

6 Results, Conclusion and Future scope for extension of research work

6.1 Introduction............................................................................ 152
6.2 Performance analysis of Offline Handwritten Character Recognition Model for Gujarati Characters........................................ 152
6.3 Performance analysis of recognition of Gujarati characters Ṣ, Ṣ, Ṣ, Ṣ, Ṣ................................................................. 153
6.3.1 Result analysis for recognition of Character ‘Ṣ’.............. 154
6.3.1.1 Writer wise performance analysis for ‘Ṣ’............... 154
6.3.1.2 Overall Performance analysis for ‘Ṣ’............... 155
6.3.2 Result analysis for recognition of Character ‘Ṣ’............ 155
6.3.2.1 Writer wise performance analysis for ‘Ṣ’.............. 156
6.3.2.2 Overall Performance analysis for ‘Ṣ’.............. 156
6.3.3 Result analysis for recognition of Character ‘Ṣ’............ 157
6.3.3.1 Writer wise performance analysis for ‘Ṣ’.............. 157
6.3.3.2 Overall Performance analysis for ‘Ṣ’.............. 158
6.3.4 Result analysis for recognition of Character ‘Ḋ’.......... 158
6.3.4.1 Writer wise performance analysis for ‘Ḋ’.......... 158
6.3.4.2 Overall Performance analysis for ‘Ḋ’.......... 159
6.3.5 Result analysis for recognition of Character ‘Ṫ’.......... 159
6.3.5.1 Writer wise performance analysis for ‘Ṫ’.......... 160
6.3.5.2 Overall Performance analysis for ‘Ṫ’.......... 160
6.3.6 Comparative analysis of success ratio for recognition of Ṣ, Ṣ, Ṣ, Ṣ, Ṣ................................................................. 161
6.4 Performance analysis of recognition of Gujarati digits ०, २, ४…………….. 162
6.4.1 Result analysis for recognition of Digit ‘०’ .............................. 162
  6.4.1.1 Writer wise performance analysis for ‘०’ .............. 162
  6.4.1.2 Overall Performance analysis for ‘०’ ...................... 163
6.4.2 Result analysis for recognition of Digit ‘२’ .............................. 163
  6.4.2.1 Writer wise performance analysis for ‘२’ .............. 164
  6.4.2.2 Overall Performance analysis for ‘२’ ...................... 164
6.4.3 Result analysis for recognition of Digit ‘४’ .............................. 165
  6.4.3.1 Writer wise performance analysis for ‘४’ .............. 165
  6.4.3.2 Overall Performance analysis for ‘४’ ...................... 166
6.4.4 Comparative analysis of success ratio for recognition of ०, २, ४………………………………………………………………………………………………………………………… 166

6.5 Performance analysis of recognition of Gujarati characters InputElementError, InputElementError, InputElementError, InputElementError from set of any Gujarati consonants......................... 167
  6.5.1 Performance analysis for Gujarati consonant ‘InputElementError’ ........ 168
  6.5.2 Performance analysis for Gujarati consonant ‘InputElementError’ ........ 169
  6.5.3 Performance analysis for Gujarati consonant ‘InputElementError’ ........ 170
  6.5.4 Performance analysis for Gujarati consonant ‘InputElementError’ ........ 170
  6.5.5 Performance analysis for Gujarati consonant ‘InputElementError’ ........ 171

6.6 Performance analysis of recognition of Gujarati digits ०, २, ४ from set of any Gujarati digits………………………………………………………………………………………………………….. 172
  6.6.1 Performance analysis for Gujarati digit ‘०’ ......................... 173
  6.6.2 Performance analysis for Gujarati digit ‘२’ ......................... 173
  6.6.3 Performance analysis for Gujarati digit ‘४’ ......................... 174

6.7 Result and discussion................................................................. 174
6.8 Conclusion................................................................................... 176
6.9 Future Scope.................................................................................. 177
