ACKNOWLEDGEMENTS

I take pleasure in placing on record my deep sense of gratitude to Dr. M.C. Saxena, M.Sc., Ph.D., Assistant Professor of Chemistry, University of Saugar, for his valuable guidance and keen interest throughout the course of the work.

I am also indebted to Professor S.S. Nigam, Ph.D. (Saugar), Ph.D. (London), D.I.C., F.R.I.C., F.N.A.Sc., Head of the Department of Chemistry, University of Saugar, and Dr. A.K. Bhattacharya, D.Sc., F.N.A.Sc., F.R.I.C., former Professor and Head of the Department of Chemistry, University of Saugar for their help and encouragement during the progress of the work.

I am thankful to Dr. S.N. Banerji, M.Sc., D.Phil., F.N.A.Sc., former Reader, Department of Chemistry, University of Saugar, for his helpful suggestions in preparing the manuscript.

The author expresses his thanks to Professor W.D. West, C.I.E., Sc.D., F.G.S., F.N.I., Head of the Department of Geology, and Director, Centre of Advanced Studies of Geology, Saugar, for having very kindly permitted the use of spectrophotometer.

My thanks are also due to the authorities of Central Drug Research Institute, Lucknow for supplying I.R. spectra and analysis data of the compounds.

I thank the Government of Madhya Pradesh, Department of Education, for granting me study leave without which this work would not have been possible.

(HARI BABU SAXENA)
