ACKNOWLEDGEMENT

I pay my humble gratitude to my kind mother father, who provided me the opportunity to gain the success despite several difficulties and problems and also inspiring me complete the research work on “In Vitro Regeneration of Some Medicinal Plants”. While doing so I was faced by several difficulties which they understood but never let me know. Due to her kindness I could undertake this task to establish my own identity in the society as well as I could see this auspicious world today. I bow down on her feet hundreds times.

Dr. N.B. Pandhure, who guided me while doing research for Ph.D. He had not only provided able guidance but whenever my knowledge became short or I faced any difficulties, he was always there with the available remedies all the time. I was inspired time to time by him. I will always remain in the debt of Dr. N.B. Pandure Sir, whose inspiration and guidance helped reached me to my target and complete my research. Since my childhood, I saw several ups and downs, which made me think constantly to find the solution in life. This practice actually forced me individually to face any kind of crisis and overcome them by struggle. Because, of that I known so many new varities of medicinal Plants. I humbly wish to discard these misconceptions and therefore I have chosen this subject. Dr. N.B. Pandure, co-operation and guidance was of immense importance to me and proved very helpful in accomplishing this task.

Dr. Sunil Kundlikrao Jadhav helped me in good writing. He took keen interest in guiding me for good writing. Dr. Balwant Singh has always stood behind me in the ups and downs in my life.
