</table>
5.7 Significance of Differences on Memory Indexes Scores among Diabetics, Hypertensives, and Co-morbid Groups (N = 160)

5.8 Tukey's HSD Post-hoc analysis between Three Groups (N = 160)

5.9 Mean and SD of Memory Indexes Scores of Diabetic subgroups (N = 68)

5.10 Significance of Homogeneity of Regression and Equality of Error Variances for Memory Indexes Scores between Diabetic subgroups (N = 68)

5.11 Significance of Differences on Memory Indexes Scores between Diabetic subgroups (N = 68)

5.12 Mean and SD of Memory Indexes Scores of Hypertensive subgroups (N = 58)

5.13 Significance of Homogeneity of Regression and Equality of Error Variances for Memory Indexes Scores between Hypertensive subgroups (N = 58)

5.14 Significance of Differences on Memory Indexes Scores between Hypertensive subgroups (N = 58)

5.15 Mean and SD of Memory Indexes Scores of Controlled subgroups of Diabetics and Hypertensives (N = 68)

5.16 Significance of Homogeneity of Regression and Equality of Error Variances for Memory Indexes Scores between Controlled subgroups of Diabetics and Hypertensives (N = 68)

5.17 Significance of Differences on Memory Indexes Scores between Controlled subgroups of Diabetics and Hypertensives (N = 68)

5.18 Mean and SD of Memory Indexes Scores of Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)

5.19 Significance of Homogeneity of Regression and Equality of Error Variances for Memory Indexes Scores between Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)
5.20 Significance of Differences on Memory Indexes Scores between Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)

5.21 Mean and SD of Neuropsychological Scales Scores of Three Groups (N = 156)

5.22 Significance of Differences on Neuropsychological Scales Scores among Normal Controls, Diabetics, and Hypertensives Groups (N = 156)

5.23 Tukey's HSD Post-hoc analysis between Three Groups (N = 156)

5.24 Mean and SD of Lobe Scales Scores of Three Groups (N = 156)

5.25 Significance of Differences on Lobe Scales Scores among Normal, Diabetics, and Hypertensives Group (N = 156)

5.26 Tukey's HSD Post-hoc analysis between Three Groups (N = 156)

5.27 Mean and SD of Neuropsychological Scales Score of Three Groups (N = 160)

5.28 Significance of Differences on Neuropsychological Scales Scores among Diabetics, Hypertensives, and Co-morbid Groups (N = 160)

5.29 Tukey's HSD Post-hoc analysis between Three Groups (N = 160)

5.30 Mean and SD of Lobe Scales Scores Three Groups (N = 160)

5.31 Significance of Differences on Lobe Scales Scores among Diabetics, Hypertensives, and Co-morbid Groups (N = 160)

5.32 Tukey's HSD Post-hoc analysis between Three Groups (N = 160)

5.33 Mean and SD of Neuropsychological Scales Scores of Diabetic subgroups (N = 68)

5.34 Significance of Differences on Neuropsychological Scales Scores between Diabetic subgroups (N = 68)
5.35 Mean and SD of Lobe Scales Scores of Diabetic subgroups (N = 68)
5.36 Significance of Differences on Lobe Scales Scores between Diabetic subgroups (N = 68)
5.37 Mean and SD of Neuropsychological Scales Scores of Hypertensive subgroups (N = 58)
5.38 Significance of Differences on Neuropsychological Scales Scores between Hypertensive subgroups (N = 58)
5.39 Mean and SD of Lobe Scales Scores of Hypertensive subgroups (N = 58)
5.40 Significance of Differences on Lobe Scales Scores between Hypertensives subgroups (N = 58)
5.41 Mean and SD of Neuropsychological Scales Scores of Controlled subgroups of Diabetics and Hypertensives (N = 68)
5.42 Significance of Differences on Neuropsychological Scales Scores between Controlled subgroups of Diabetics and Hypertensives (N = 68)
5.43 Mean and SD of Lobe Scales Scores of Controlled subgroups of Diabetics and Hypertensives (N = 68)
5.44 Significance of Differences on Lobe Scales Scores between Controlled subgroups of Diabetics and Hypertensives (N = 68)
5.45 Mean and SD of Neuropsychological Scales Scores of Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)
5.46 Significance of Differences on Neuropsychological Scales Scores between Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)
5.47 Mean and SD of Lobe Scales Scores of Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)
5.48 Significance of Differences on Lobe Scales Scores between Uncontrolled subgroups of Diabetics and Hypertensives (N = 58)
