Acknowledgements

My interest for this study was due to Shantha Madam who has been working for the children since long and her different writes up that inspired me to bring my whole attention for the sake of children and to understand their problems through this study. I immensly thank Shantha Madam for her encouragement and guidance since the day of my joining PhD and invaluable suggestions while framing ideas and to come to a point.

Even my interest for my home state Orissa which always disturbs me as everyone points outs its abject poverty. My love towards my state on one hand and different odd reports on hunger death, child sale, drought, cyclone and flood on the other emotionally forced me to think about and act upon it. My sincere thanks to Bob Currie whose book on Kalahandi’s Poverty also strengthened my idea to work on various issue related to hunger, poverty, rights, etc.

My first phase of field work for this study was conducted for one month between May-June 2007 in Orissa. And the second field visit was made to Tamil Nadu during November-December 2007. I am greatful to Shantha Madam who insited me to have indepth field based knowledege on Orissa and Tamil Nadu. Studying one state without another though fruitless, both the states were taken into account.

This work would not have been completed, but for the help, supervision and guidance of many people whom I wish to pay my sincere gratitude.

I wish to convey my sincere gratitude to my supervisor Dr. K Y Ratnam for his support and advice at times of need and, most important, his timely encouragement and correction of this dissertation. My special gratitude to my Sir for his support during the time of my urgent need of guidance who not only supported me but also gave a new direction to it.
