ACKNOWLEDGEMENT

I express my deep sense of gratitude with reverence to my respected supervisor and guide, Professor Dr. M. S. Y. Khan, Head, Department of Pharmaceutical Chemistry, for accepting me as his student, which has helped me a long way in shaping my attitudes towards science. His perennially positive attitude, generosity with his time and ideas, his enthusiasm for all aspects of chemistry and his encouragement to follow one's own ideas created a marvellous and exciting atmosphere in the Lab and Department. His scholarly suggestions, immense interest, ungreeding help and affectionate behaviour have been a fountain, a great inspiration and pleasure to me. Moreover, his personal charm and warmth could be a source of inspiration and pleasure to anybody who is lucky enough to interact with him. I enjoyed my association with him to the extent that I consider this period a fortunate and unparalleled event in my life. My regards for him are beyond the expression of words.

I take this opportunity to express my profound gratitude to Philanthropist and Visionary the Great Late Alhaj Janab Hakim Abdul Hamid Sahib, Former Chancellor and Founder of Jamia Hamdard.

It is a great privilege for me to record my deep sense of gratitude to Alhaj Janab Abdul Mueed Sahib, President, Hamdard National foundation, for his keen interest in the research activities and for providing the infrastructural facilities.

I would like to express my heartiest thanks to Prof. Dr. S. D. Seth, Ex-Head, Department of Pharmacology, All India Institute of Medical Sciences, New Delhi for his perpetual support and constant encouragement rendered.

I thankfully appreciate and acknowledge the financial assistance provided by Council of Scientific and Industrial Research (CSIR) for awarding me a Senior Research Fellowship (SRF) for the study.

I express my thanks to Prof. K. K. Pillai, Dr. Shanthi Pal and Ms. Divya Vohra, Department of Pharmacology for helping me while screening the pharmacological activities.
I also acknowledge with gratitude the valuable help provided by Prof. Dr. Jaganathan, Dr. Uma and Mr. Sanjay, Department of NMR, All India Institute of Medical Sciences, New Delhi for recording the NMR Spectra of newly synthesized compounds. A similar help rendered by Mr. Avtar Singh, RSIC, Chandigarh and NMR Department of IIT is also acknowledged. My thanks are due to CDRI, Lucknow for recording Mass spectra of the compounds reported in this thesis.

My sincere thanks are also due to Dr. (Mrs) P. K. Pillai, Microbiology Lab, Majeedia Hospital, Jamia Hamdard for her help in carrying out anti-microbial activity.

I also wish to thank Ms. Shaukat Shah, Incharge, Central Animal Facility, for providing animals for the study in time.

I am grateful to Dr. Sushma Drabu, Dr. Geeta Chawla, Dr. Sandhya Bawa, Dr. Monica Gupta, Dr. Syed Misbahul Hasan, Dr. Vibha Sharma and Mr. Asif Husain for their good wishes during the course of these studies.

I wish to thank the non-teaching staff for their timely co-operation and best wishes.

I wish to express my sincere thanks to Ms. Rashmi Shukla and Mr. Sameer for helping me while doing the pharmacological activities. I owe a great deal to Mr. Shahar Yar, Mr. Rashid, Ms. Myemoona, Mr. Asad, Ms. Kavita and Mr. Sageer for their helpful hands during this study.

I wish to thank Gokul and Althaf, whose help and encouragement has brought the thesis to its present shape. It is a pleasure to thank my best friends Siva, Mansoor and Ayaaz, who were always with me in both good and bad times.

I also value the love and affection showered upon me by Appa and Amma, who helped in more than one way to achieve this goal. Not to forget the best wishes and support of my brother Dr. Jagadeesh, my fiancée Ms. Mekala and her family members, without which it would have been next to impossible to complete this thesis.

(N. GOPAL)
