ACKNOWLEDGEMENT

"Success is not measured by the position one has reached in life, rather by the obstacles overcome while trying to succeed."

The note of thanks starts with remembering the blessing of Almighty Allah who gave the opportunity, inspiration, patience and energy to craft this work and helped me at all the difficult times when things looked bleak.

I become unexpressive while saying something about Late Dr. Najm Zaheer Khan, my former supervisor, who was not only a good teacher but also a great human being. His affection, utmost care and courage have been the source of inspiration for me during my research. May his noble soul rest in eternal peace.

I place on record my deep sense of reverence and cordial gratitude to Prof. Mohd. Ali, Deptt. of Pharmacognosy and Phytochemistry, faculty of Pharmacy, Jamia Hamdard, my consummate supervisor, who is not only guided me but also inspired me at every step with his characteristic affection, calm approach and devotion for work. I would consider myself lucky if I could imbibe even a fraction of his scientific excellence and extremely humane honest nature.

I sincerely wish to make my heartfelt gratitude towards my co-supervisor Dr. M. Sarwar Alam, Head, Deptt. of Chemistry, faculty of Science, Jamia Hamdard, for his timely guidance, suggestions and encouragement during my research work. I thank him a lot for providing me necessary facilities needed during my research.

I honestly pay my regards to Prof. S. K. Jain, Dean, Faculty of Science, for extending me all facilities to accomplish my task.

I feel pleasure to express my sincere thanks to Vice Chancellor Dr. Shamim Ahmad for taking keen interest in research and ongoing developmental programs in the university.

I feel deeply obliged and indebted to Dr. Kalim Javed and Dr. Hina Hamid for their valuable suggestions, cooperation and moral support.
I would like to thank Dr. M. P. Sharma, Deptt. of Botany, faculty of Science for identification of plant material and Prof. K. K. Pillai Deptt. of Pharmacology, faculty of Pharmacy, Jamia Hamdard, for help in carrying out anti-inflammatory activity.

I am highly thankful to Mr. B. P. Panda, Deptt. of Biotechnology, faculty of Pharmacy, Jamia Hamdard, for his cooperation and help in carrying out anti-bacterial activity.

I express my thanks to Dr. (Mrs.) Shaukat A. Shah, incharge central animal house and Dr. (Mrs.) P. K. Pillai, Head, Deptt. of Microbiology and Ms. Beena, Majeedia hospital for their valuable cooperation and help.

My sincere appreciation and thanks are due to Dr. P. K. Rai, CPEES, DRDO, Delhi, for helping in heavy metal analysis.

My special thanks are due to NMR, Deptt. IIT Delhi, for recording NMR spectra, CDRI, Lucknow, for recording mass spectra and MTCC, IMTECH, Chandigarh for providing bacterial strains.

I would like to extend my thanks to IJSCAPR, IJML, Delhi University, IIT Delhi, Central Library and Science faculty library Jamia Hamdard New Delhi, for their cooperation.

My thanks are due to staff members of IJF faculty of Science and faculty of Pharmacy, especially to Mr. Mushtaq for their help in using instrumentation facility.

I am also thankful to non-teaching staff of our department namely Mr. Abdul Rehman, Mr. Israel, Mr. Ashan and Mr. Jamal for their consistent cooperation and help during my research.

A well deserved and special word of thanks to my seniors Dr. Akhlaq, Mr. Anwar Siddiqui, Zoobi, Dr. Shaukat, Mr. Wadood and Dr. Taj. They always showed their keen interest in my research work and helped me immensely in solving my day to day problems.

I cannot help in extending thanks to all my juniors.
It is indeed a great pleasure to acknowledge my well wishers and friends viz. Sameena, Abha, Rathish, Sandeep, Irfan, Majid, Chakrobarty, Priyanka, Nitin, Harish, Rohit, Majid, Shahnaz, Shaheen, Shalini, Zohra and Faisal. Their support has helped me in easily finishing my research work.

It is really difficult me to give vent and summarize the true account of Shamim and Arpana. Both of them deserve all the praise for their splendid cooperation, help, moral support and right guidance in completion of my project. I am really the luckiest person to have such friends. Their good wishes and friendly backing were of good use in shedding my worries.

It is impossible to express my indebtedness to Dr. Arif Zaidi, Faculty of Medicine, Jamia Hamdard, for his valuable cooperation, encouragement and moral support.

My greatest homage to my loving brother Late Mr. Nadeem, who always inspired me and remains in my memories. May his noble soul rest in eternal peace.

The most valuable persons in my life are my father and mother to whom I dedicated my research. The unfailing love, care and moral support of my dear brothers Mr. Tanveer and Mr. Muneeb. My sweet Sisters Mrs. Sadia and Ms. Shabi have always been a matter of pride and source of inspiration for me. I am thankful to my family for their unfaltering support, affection, patience and trust that they have put in me.

All my efforts have borne fruit with the grace and blessings of the Almighty Allah!

Nida Afttar
