ACKNOWLEDGEMENT

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has kept me on track and has been put through to completion with the support and encouragement of numerous people including my well wishers, my friends and colleagues. Words are often too less to reveal one’s deep regards. An understanding of the work like this is never the outcome of efforts of a single person. At the end of my thesis, it is a pleasant task to express my thanks to all those people who contributed in many ways to the success of this study and made it an unforgettable experience for me.

At this moment of accomplishment, first of all I thank to supreme power, “THE ALLAH” for providing me enough patience, zeal and strength that enable me to complete this work successfully. I would like to give glory to ALLAH for His Grace and Help in all my endeavors and for bringing me this far in my academic career.

On successful completion of this work, more than a sense of elation, I compulsively feel in the first instance to gratefully acknowledge Late Jinab Hakeem Abdul Hameed Sahib, Founder Chancellor, Jamia Hamdard, which gave enlightenment to many of us, but he still remains and will remain as a legend in our hearts.

At the time of submitting my research work I hereby offer my proud salutation to my guide and mentor of my research career Prof. (Dr.) Mohd. Ali for his constant inspiration, inestimable motivation, professional constructive guidance, to accelerate and complete the work on schedule. As I observed and enjoyed, he gives lot of independence to students and appreciates original thinking. I feel pleasure in expressing my sincere thanks to my co-supervisor Dr. Showkat Rasool Mir for his erudite guidance, timely suggestions, keen interest, sustained encouragement and illuminating counseling. The experience I have earned under their dedicated and disciplined academic environment will be my life-long asset and inevitable reward.

My thanks go in particular to Mr. Abuzar Ali, Ms.
Shehia, Ms. Maria, Ms. Irani, Mr. Kamran Javed, Mr. Javed Ahmad, Mr. Ujjawal Kaushik and Mr., Mohd. My deepest gratitude goes to my family for their unflagging love and support throughout my life; this thesis is simply impossible without them. I am indebted to my mother Mrs. Sara Bano, who gave me very wise suggestions which drove me to spend my time and energy in the right direction. to my wife Mrs. Shabeca Ayaz for her support, generous care and the homely feeling at Jammu. A journey is easier when you travel together. She and her family were always beside me during the happy and hard moments to push me and motivate me. I can see the good shape of my thesis because of their help and suggestions in formatting the entire thesis. Interdependence is certainly more valuable than independence.
