12.0 Publications and Achievements

12.1 Conference presentations
- Development and validation of a new LC-MS/MS Bio-Analytical method for the determination of Curcumin in human plasma samples was presented at Recent Developments in Pharmaceutical Analysis which was held at Milan, Italy from 9 – 12 Sept 2009.

12.2 Review Article

12.3 Industry academia collaborative project under DPRP scheme of DST
- This project has been funded by Department of Science and Technology (DST) and Arbro Pharmaceutical Ltd. (New Delhi) under the Drugs and Pharmaceuticals Research Program (DPRP).

12.4 Research paper

12.5 Patent application
- An Indian patent and US patent has been filed for the SNEDDS formulation developed in this project.
- Title of the Invention “Self Emulsifying Drug Delivery System For A Curcuminoid Based Composition”
